<b>List of Figures</b>	<b>ix</b>
<b>List of Tables</b>	<b>xi</b>
<b>1 Introduction and Summary</b>	<b>1</b>
<b>2 Cointegrated Systems</b>	<b>7</b>
2.1 Some Historical Background to the Modelling of Economic Time Series . . . . .	9
2.2 Integration and Cointegration . . . . .	17
2.3 The Modelling of Cointegrated Systems . . . . .	24
2.4 Cointegration and Conditional Sub-systems . . . . .	34
2.5 Error Correction Models . . . . .	38
2.6 Conclusions . . . . .	40
<b>3 Weak Exogeneity in ECMs</b>	<b>43</b>
3.1 Weak Exogeneity . . . . .	44
3.1.1 Definition and example . . . . .	45
3.1.2 Empirical motivations . . . . .	50
3.2 Reduced Form Error Correction Models . . . . .	51
3.2.1 The error correction system in reduced form . . . . .	51
3.2.2 Single equation error correction model in reduced form and weak exogeneity . . . . .	53
3.3 ECMs in Structural Form . . . . .	61
3.3.1 The error correction system in structural form . . . . .	61
3.3.2 Single equation error correction model in structural form and weak exogeneity . . . . .	62
3.4 Inference on Weak Exogeneity in ECMs . . . . .	65
3.4.1 Are orthogonality tests useful in single equation ECMs	65

3.4.2	Testing for the presence of cointegrating vectors in the marginal models . . . . .	67
3.5	Empirical Illustration . . . . .	68
3.5.1	Belgium consumption function: Steel (1987) . . . . .	68
3.5.2	Aggregate import demand function: Urbain (1988) . . . . .	72
3.5.3	The UK demand for money: Lubrano et al. (1986), Steel and Richard (1991) . . . . .	73
3.6	Conclusions . . . . .	81
4	<b>Testing for Weak Exogeneity</b> . . . . .	<b>83</b>
4.1	Introduction . . . . .	83
4.2	Exogeneity and the Incomplete SEM . . . . .	85
4.3	The Behaviour of Orthogonality Tests in the Presence of (Co)-Integrated Variables . . . . .	90
4.3.1	Testing for weak exogeneity within a limited information framework . . . . .	91
4.3.2	Small sample behaviour: some simulation evidence . . . . .	93
4.3.3	Asymptotic distribution . . . . .	101
4.4	Testing for Weak Exogeneity in ECMs where the Short Run Dynamic Parameters are Parameters of Interest . . . . .	107
4.5	Conclusions . . . . .	111
5	<b>Empirical Analysis: The Case of Aggregate Imports</b> . . . . .	<b>113</b>
5.1	Background . . . . .	113
5.1.1	The imperfect substitutes model for aggregate trade flows . . . . .	114
5.1.2	Econometric issues in trade modelling . . . . .	116
5.2	System versus Partial Approach to the Modelling of Belgium Aggregate Imports . . . . .	123
5.2.1	Univariate analysis . . . . .	124
5.2.2	Multivariate cointegration and simultaneous equation models . . . . .	137
5.2.3	Partial modelling of aggregate imports: a structural ECM . . . . .	149
5.3	Conclusions . . . . .	160
6	<b>Conclusions</b> . . . . .	<b>161</b>
	<b>Bibliography</b> . . . . .	<b>165</b>
	<b>Author Index</b> . . . . .	<b>185</b>
	<b>Subject Index</b> . . . . .	<b>188</b>

# List of Figures

2.1	Stationary process . . . . .	20
2.2	$I(1)$ process . . . . .	20
2.3	near- $I(1)$ process . . . . .	21
2.4	Independent $I(1)$ processes . . . . .	23
2.5	Bivariate cointegrated series . . . . .	23
3.1	Real disposable income and M3 (in logs) . . . . .	75
3.2	Deflator of the real disposable income and short term interest rates (in logs) . . . . .	75
3.3	Deflator of the real disposable income (in first diff.) . . . . .	76
3.4	Short run interest rates (in first diff.) . . . . .	76
3.5	M3 (in first diff.) . . . . .	77
3.6	Real personal disposable income (in first diff.) . . . . .	77
5.1	Import and domestic prices (in level) . . . . .	125
5.2	Import prices (in first diff.) . . . . .	125
5.3	Domestic prices (in first diff.) . . . . .	126
5.4	Import volume (in level) . . . . .	126
5.5	Import volume (in first diff.) . . . . .	127
5.6	Real income (in level) . . . . .	127
5.7	Real income (in first diff.) . . . . .	128
5.8	Sequential ADF tests: import volume . . . . .	135
5.9	Sequential ADF tests: real income . . . . .	136
5.10	Sequential ADF tests: domestic prices . . . . .	136
5.11	Sequential ADF tests: import prices . . . . .	137
5.12	Restricted cointegrating vector . . . . .	143
5.13	1-step Chow tests (PVAR): import volume equation . . . . .	145
5.14	1-step Chow tests (PVAR): real income equation . . . . .	146
5.15	1-step Chow tests (PVAR): domestic prices equation . . . . .	146

5.16 1-step Chow tests (PVAR): import prices equation . . . . .	147
5.17 N-step ahead Chow tests: structural ECM . . . . .	158
5.18 N-step backward Chow tests: structural ECM . . . . .	159
5.19 1-step Chow tests: structural ECM . . . . .	159

# List of Tables

3.1	Auxiliary regression for $\Delta ia_t^*$ . . . . .	70
3.2	Exogeneity tests by variable addition . . . . .	71
3.3	Money demand in the UK: MLE approach with $n = 3$ . . . .	79
3.4	Money demand in the UK: MLE approach with $n = 5$ . . . .	80
4.1	Representation of incomplete SEMs . . . . .	88
4.2	Instruments used in the simulations . . . . .	96
4.3	Empirical size of orthogonality tests . . . . .	98
4.4	Empirical power of orthogonality tests , $\rho = 0.25$ . . . . .	99
4.5	Empirical power of orthogonality tests , $\rho = 0.50$ . . . . .	100
5.1	Testing for seasonal unit roots . . . . .	130
5.2	Testing for unit roots at the zero frequency . . . . .	132
5.3	Testing for breaking trend: the 1973 oil shock . . . . .	134
5.4	Lag length selection and Johansen's cointegration tests . . . .	139
5.5	Multivariate cointegration analysis . . . . .	141
5.6	Hypothesis tests on cointegrating matrix . . . . .	142
5.7	Statistics on the error processes . . . . .	144
5.8	FIML estimation of the final SEM . . . . .	148
5.9	Wald tests for Cointegration . . . . .	151
5.10	Cointegrating vector estimates . . . . .	152
5.11	Structural ECM and weak exogeneity . . . . .	155
5.12	Weak exogeneity tests . . . . .	156
5.13	ECM for aggregate imports . . . . .	157
