# Tables

3.1	Christian democratic parties in continental Western Europe and Ireland	50
3.2	Membership and electoral strength of Catholic/Christian democratic parties in continental Western Europe and Ireland, 1945–60 (or nearest year)	53
3.3	Government record of Christian democracy in continental Western Europe and Ireland, 1945–60	55
5.1	Expenditure of social security schemes as a percentage of gross domestic product, 1960 and 1980	100
5.2	OLS regression, dependent variable = social security expenditure, 1960 and 1980	102
5.3	Pension expenditure as a percentage of GDP, 1960 and 1980	104
5.4	Pension coverage ratios among population aged 15–65, 1960 and 1980	105
5.5	Net pension replacement rates for singles and couples, 1960 and 1980	106
5.6	Number of people over 65 years of age as a proportion of total population, 1960 and 1980	108
5.7	OLS regression, dependent variable = pension spending, 1960 and 1980	109
6.1	Weighted average net replacement rates, average net replacement rates and average coverage ratios of major social security schemes, 1960 and 1980	126
6.2	OLS regression, dependent variable = weighted average net replacement rates of major social security schemes, 1960 and 1980	127
6.3	Privileging of families in net average production worker's wage, 1960 and 1980	137
6.4	Privileging of families in disposable income in 1976	139

6.5	OLS regression, dependent variable = family bias in tax-benefit regimes, 1980	140
6.6	OLS regression, dependent variable = cash-benefit bias in welfare states, 1960 and 1980	142
6.7	OLS regression, dependent variables = labour force participation rates: total, male and female, 1960 and 1980	145
6.8	Growth of female labour force as a percentage of female population from 15 to 64, 1960-80	146
7.1	OLS regression, dependent variable = bi- and tripartism in social security administration, 1980	149
7.2	Financing of social security schemes, shares of insured, employers and the state, 1960 and 1980	151
7.3	Benefit structure and benefit inequality of pensions in 1960 and 1980	152
7.4	OLS regression, dependent variable = fragmentation in social security schemes in 1980	154
7.5	Cash transfers as a percentage of gross earnings of a married couple with two children at the level of an average production worker, 1972-6	168
7.6	Disposable income as a percentage of gross earnings at the level of an average production worker in 1978, selected household compositions	169
7.7	Percentage change in disposable income as percentage of gross earnings, moving from one household composition to another, at the level of an average production worker in 1978	171
7.8	OLS regression, dependent variable = absolute values of column 4, Table 7.7	172
