<i>List of figures</i>	<i>page</i> viii
<i>Preface</i>	ix
<i>Introduction</i>	1
Part I Dealing with an uncertain future	7
1 Path-dependent aspects of technological change	9
2 Charles Babbage: pioneer economist	24
3 Joseph Schumpeter: radical economist	47
4 Technological innovation and long waves	62
Part II Technology in context	85
5 Economic experiments	87
6 Why in America?	109
7 Can Americans learn to become better imitators?	121
8 Critical issues in science policy research	139
Part III Sectoral studies in technological change	159
9 Energy-efficient technologies: past and future perspectives	161
10 Innovation in the chemical processing industries	190
11 Telecommunications: complex, uncertain, and path dependent	203
12 Understanding the adoption of new technology in the forest products industry	232
13 Scientific instrumentation and university research	250
<i>Index</i>	264

Figures

9.1	Energy consumption per unit of GNP	<i>page</i> 167
9.2	Industrial energy intensity by country, all countries	173
9.3	Real prices of energy, 1953 to 1976	178
10.1	Learning curves in innovation	195
12.1	Composition of inventory and harvest of softwood growing stock by size class from 1952 to 1987	237
12.2	Price of Douglas-fir veneer logs in western Washington and Northwest Oregon from 1950 to 1985	237
12.3	Prices of softwood, plywood, and lumber in Douglas-fir region from 1950 to 1985	241
12.4	Price of Douglas-fir veneer compared to price of aspen sawlogs and OSB-waferboard production from 1955 to 1985	242
