

Table of contents

Preface/D. J. BETTERIDGE	ix
1 Low density lipoprotein heterogeneity B. A. GRIFFIN	687
2 Post-prandial lipaemia R. KIRCHMAIR, C. F. EBENBICHLER & J. R. PATSCH	705
3 Oxidized lipoproteins K. R. BRUCKDORFER	721
4 Remnant particles and their metabolism S. EISENBERG & E. SEHAYEK	739
5 The role of stable isotopes in the investigation of plasma lipoprotein metabolism C. J. PACKARD	755
6 Lipoprotein (a) P. N. DURRINGTON	773
7 The genetic determinants of plasma cholesterol and response to diet S. E. HUMPHRIES, R. E. PEACOCK & P. J. TALMUD	797
8 Currently available hypolipidaemic drugs and future therapeutic developments J. A. FARMER & A. M. GOTTO JR	825
9 Lipoproteins and the progression/regression of atherosclerosis J. D. BARTH	849
10 Review of new guidelines for management of dyslipidaemia D. J. BETTERIDGE & M. KHAN	867
Index	891
