Preface xi

Chapter 1. Overview	1
Introduction	1
Purpose of book	3
Intended audience	6
Book content	7
Structure of book	8
Contents of CD-ROM	10
Contents of the Book's Information Home Page	10
 Chapter 2. HTML and Database Integration	 11
Introduction	11
Marketing	19
Site Strategy	25
Demographics	27
Promotion	28
Design	36
Page Strategy	42
Deadly Design Sins	44
Web Design Sources	58
Organization and Structure	64
Site Search and Indexes	68
Information for Navigation	80
Internationalization	83
Competitive Intelligence	86
Java, VBScript, JavaScript, ActiveX, and Add-ins	89
Hit Counters	90
Audited Statistics	96
Scripts	103
Graphics	107
Color Palette	108
GIF Formats	110
Image Animation	115

Image Maps	122
Virtual Reality	132
Streaming Video and Motion	136
Video Phone Connectivity and Multimedia	137
Graphic Libraries	138
Capturing Graphics	141
Getting Pictures	148
Background Colors and Textures	150
Background Tiling	152
Do-it-Yourself Backgrounds	154
Image Quality	155
Sounds	158
E-Mail Enablement	159
Database Integration	161
Notes Integration	161
Conclusion	165
 Chapter 3. Platform Shoes	 167
Introduction	167
Internet Plumbing	169
Tie-lines	174
Authentication and Passwords	177
Domain Name Services	179
Client Browser Platform	187
Client-Side Browser Platforms	189
Development Platforms	190
Host WWW Site	196
Causes for Poor Web Service Performance	199
Local WWW Site	201
Platform Issues	201
Platform Choices	202
Local to Host Process	207
Web Servers Versus Commerce Servers	212
Site Development Platform Effects	212
Conclusion	213
 Chapter 4. Service Implementation	 215
Introduction	215
Budgeting Site Development	215
Planning	217
Domain Registration	225
Legal Limitations	228
Ownership of Site and Materials	230
Reuse of Preexisting Content	232
Malice, Libel, Defamation, and Opinions	233
HTML Design (Layout) Issues	234
Document-to-HTML Conversion	248
Data-to-HTML Conversion	251
Help-to-HTML Conversion	259

Link Etiquette	261
Site and Link Validation	265
Security	271
Cookies Security Breaches	289
Website Security	292
Security Windows and Techniques	293
Internet Lacks Security	295
Threats to the Website	296
External Access	307
Hierarchy of Access	313
Fallback Countermeasures	314
Website Backup	315
Encryption Certificates	316
Site Content Protection	321
Notes Conversion and Web-Enablement	326
Database Integration	326
The Query and Display Interface	336
Web Application Enablement	353
Database Performance	361
Web Help	362
Graphical Integration	367
Electronic Commerce	368
Credit and Checks	370
Electronic Data Interchange (EDI)	370
E-Cash	375
Credit Cards	377
Merchant Credit/Debit Services	379
Secure Internet Transactions	385
Electronic Commerce Foundations	386
Financial Accounting Integration	386
Electronic Software Distribution	387
Fulfillment	395
Website Performance Optimization	400
Network Performance	401
Host Performance	402
Transmission Connection Speeds	402
Database Query Performance	403
Robot Exclusion	404
Conclusion	405

Chapter 5. Case Studies	407
Introduction	407
Small Business Informational Site	407
Manufacturer-Direct Commerce	408
Institutional Wholesale	409
Web Mall	414
Activision Games On-Line	418
Travelocity	419
Yamaha Riva	423
Razorfish Agency	429
L.L. Bean	434

Lands' End	437
Pacific Coast	449
PayChex	454
Florida Division of Elections	457
Other Transactional Sites	458
The Site Makeover	463
Conclusion	473
Chapter 6. The Companion CD-ROM	475
Introduction	475
Contents of CD-ROM	475
Hypertext Book	476
Product Database	477
Audit	480
CGI	481
Demos	481
Design	481
Hitcount	482
InterNIC	483
Media	484
Security	484
SET	484
Tools	485
VBScript	486
Conclusion	486
Sources	487
Glossary	489
Index	511
