

## Part 1: Mostly Arrhythmias

1	The Five-point Approach.....	2
2	Q Waves in Ectopic Beats.....	4
3	Simulated Ventricular Bigeminy.....	6
4	The Bix Rule.....	8
5	Deceptive P-Wave Polarity.....	10
6	Parasystole's Lost Mystique.....	12
7	Deviant Fusion Beats.....	14
8	Ventricular Tachycardia And P Waves.....	18
9	Frailty of Lead 2.....	20
10	Ashman's Phenomenon.....	22
11	The Shape of Things.....	24
12	Look-alike QRS Complexes.....	30
13	P Waves: Antecedent But Unattached.....	34
14	Hazards of Holtering.....	36
15	The Disengaged Electrode.....	38
16	The "TUP" Phenomenon.....	40
17	P-like Waves.....	42
18	The Bifid T Wave.....	44
19	Masquerading U Waves.....	46
20	Broken Reed.....	48

## Part 2: Unheavenly Twins

21	Sinus Pause Vs. Nonconducted APB.....	54
22	Sinus Bradycardia Vs. Nonconducted Atrial Bigeminy.....	56
23	VPB Vs. APB With Aberration.....	58
24	APB With Aberration Vs. Fusion Between APB And VPB.....	60
25	The Widening QRS: Progressive Aberration Vs. Ectopic Takeover.....	62
26	When Only The Second-in-a-row of Rapid Beats Is Anomalous.....	64
27	Dissociation or Reciprocation?.....	66
28	Mimics of A-V Block—Concealed JPBs.....	68

## Part 3: Mostly Blocks

29	Wenckebach's Footprints.....	72
30	R-P/P-R Reciprocity.....	74
31	Pairs Galore.....	76
32	"Over The Top".....	78

33	The Elastic P-R.....	80
34	Reverence For Ratios.....	84
35	Two-to-one Chaos.....	86
36	“Complete” A-V Block.....	88
37	Retrograde Antics.....	90
38	Dissociation Vs. Block.....	92
39	Concealed Conduction Aggravating A-V Block.....	94
40	Capture(d) Beats: Terminology.....	96
41	Capture(d) Beats: Their Recognition.....	96
42	Reward For Capture.....	98
43	Pacemaker Treachery: No Blips.....	102
44	Pacemaker Treachery: Faulty Sensing?.....	104
45	A Tale of Two Cycles.....	106

## Part 4: 12-Lead Revelations

46	Mitral Stenosis: The Lead I Clue.....	110
47	Mitral Stenosis: The Axis/Fibrillation Clue.....	112
48	Axis Deviation in LBBB.....	114
49	LBBB With Q Waves.....	116
50	LBBB And Myocardial Infarction.....	118
51	First Sign of RBBB.....	120
52	Rate-dependent Q Waves.....	122
53	Early Diagnosis of Inferior Infarction.....	124
54	Inferior Infarction And Anterior Hemiblock.....	128
55	RV Infarction.....	130
56	Estimating RV Pressure From V1.....	132
57	Congenital Right Ventricular Hypertrophy.....	132
58	Acute Cor Pulmonale.....	134
59	QS Complexes in “Anteroseptal” Leads.....	138
60	Hypertrophic Cardiomyopathy.....	140
61	Electrical Alternans.....	142
62	Hypothyroidism.....	144
63	Currents of Injury.....	146
64	Precordial T-wave Balance.....	150
65	The Overlooked U Wave.....	152
66	Hypokalemia and its Mimic.....	154
67	The Isoelectric Bipolar Lead.....	156
68	The Bipolar Equation.....	158
69	Beware the Freeze.....	160
70	Repolarization Alternans.....	162
	Index.....	165
