Preface to new expanded edition	vii
Preface to first edition	ix
Part 1 General Orientation	1
1 Contrasting perspectives	3
2 Ethics of research	17
3 Selecting a research topic and reviewing the literature	25
Part 2 Quantitative Methods	41
4 Descriptive statistics	43
5 Normal distribution and statistical significance	67
6 Sampling and standard error of the mean	82
7 Hypothesis formation and testing	105
8 Levels of measurement	119
9 Variables	125
10 Research design and the control of error	134
11 Choosing statistical tests	151
12 Power and effect size	157
13 Testing hypotheses of difference I: Independent groups design	175
14 Testing hypotheses of difference II: Paired groups design	198
15 Testing hypotheses of relationship I: Chi square	212

16	Testing hypotheses of relationship II: Correlation	231
17	Other correlation techniques	258
18	Prediction and simple linear regression	273
19	Analysis of variance (ANOVA)	294
20	Reliability and validity	336
21	Meta-analysis	361
22	The experimental research report	378
Part 3	Qualitative Methods	387
23	Ethnographic research	393
24	Unstructured interviewing	423
25	Action-research	443
26	Case studies	459
27	Historical research	481
28	The qualitative research report	491
	Report 1 'I feel sorry for supply teachers . . .'	501
	Report 2 Nasr's development as a writer in his second language: the first six months	511
	Report 3 Dimensions of effective school leadership: the teacher's perspective	535
Part 4	Survey Methods	553
29	Attitude surveys	555
30	Structured interview and questionnaire surveys	566
Appendix		594
	STQ answers	594
Index		607
