

# Contents

<b>Bibliography (through 1999)</b>	<b>vii</b>
[1978a] The $p$ -Primary Component of the Cuspidal Divisor Class Group on the Modular Curve $X(p)$ (with D. Kubert) .....	1
[1978b] Units in the Modular Function Field V: Iwasawa Theory in the Modular Tower (with D. Kubert) .....	21
[1978c] Stickelberger Ideals (with D. Kubert) .....	29
[1978d] The Index of Stickelberger Ideals of Order 2 and Cuspidal Class Numbers (with D. Kubert) .....	39
[1978e] Relations de Distributions et Exemples Classiques .....	59
[1979a] Cartan-Bernoulli Numbers as Values of L-Series (with D. Kubert) .....	66
[1979b] Independence of Modular Units on Tate Curves (with D. Kubert) .....	72
[1979c] Modular Units inside Cyclotomic Units (with D. Kubert) .....	83
[1981a] Finiteness Theorems in Geometric Class Field Theory (with N. Katz) .....	101
[1982a] Représentations Localement Algébriques dans les Corps Cyclotomiques .....	136
[1982b] Units and Class Groups in Number Theory and Algebraic Theory .....	148
[1983] Conjectured Diophantine Estimates on Elliptic Curves .....	212
[1984a] Vojta's Conjecture .....	229
[1984b] Variétés Hyperboliques et Analyse Diophantienne .....	243

[1986a] Hyperbolic and Diophantine Analysis .....	253
[1987a] Diophantine Problems in Complex Hyperbolic Analysis .....	300
[1988] The Error Term in Nevanlinna Theory .....	318
[1990a] The Error Term in Nevanlinna Theory II .....	344
[1990b] Old and New Conjectured Diophantine Inequalities .....	355
