

# CONTENTS

<b>List of Contributors</b>	<b>vii</b>
<b>Preface</b>	<b>ix</b>
Susan Kemper	
<b>Part 1: Constraints on Language: Aging</b>	<b>1</b>
1. <b>Language Production and Aging</b>	<b>3</b>
Deborah M. Burke	
2. <b>Working Memory and Spoken Language Comprehension: The Case for Age Stability in Conceptual Short-Term Memory</b>	<b>29</b>
Arthur Wingfield and Patricia A. Tun	
3. <b>Discourse Processing and Aging: Resource Allocation As a Limiting Factor</b>	<b>53</b>
Elizabeth A. L. Stine-Morrow and Lisa M. Soederberg Miller	
<b>Part 2: Constraints on Language: Memory</b>	<b>77</b>
4. <b>Limitations on Syntactic Processing</b>	<b>79</b>
Susan Kemper and Karen A. Kemtes	

5.	<b>Verbal Working Memory Capacity and On-Line Sentence Processing Efficiency in the Elderly</b>	<b>107</b>
	Gloria Waters and David Caplan	
6.	<b>Testing Age Invariance in Language Processes</b>	<b>137</b>
	Reinhold Kliegl, Ulrich Mayr, Martina Junker, and Gisbert Fanselow	
	<b>Part 3: Constraints on Language: Grammar</b>	<b>169</b>
7.	<b>Processing Difficulty and Principles of Grammar</b>	<b>171</b>
	Gisbert Fanselow, Reinhold Kliegl, and Matthias Schlesewsky	
8.	<b>Parsing and Memory</b>	<b>203</b>
	Lyn Frazier	
	<b>Part 4: Constraints on Language: Neuroscience</b>	<b>225</b>
9.	<b>Working with Limited Memory: Sentence Comprehension in Alzheimer's Disease</b>	<b>227</b>
	Daniel Kempler, Amit Almor, Maryellen C. MacDonald, and Elaine S. Andersen	
10.	<b>Memory or Aging? That's the Question: An Electrophysiological Perspective on language</b>	<b>249</b>
	Thomas C. Gunter, Sandra H. Vos, and Angela D. Friederici	
11.	<b>Age Effects on the Functional Neuroanatomy of Syntactic Processing in Sentence Comprehension</b>	<b>283</b>
	David Caplan and Gloria Waters	
	<b>Concluding Observations</b>	<b>299</b>
	Reinhold Kliegl and Susan Kemper	
	<b>Index</b>	<b>309</b>
