Preface	vii
1 Aging of the Brain and Its Impact on Cognitive Performance: Integration of Structural and Functional Findings <i>Naftali Raz</i>	1
2 Age-Related Changes in Memory: A Cognitive Neuroscience Perspective <i>Matthew W. Prull, John D. E. Gabrieli, and Silvia A. Bunge</i>	91
3 Implications of Perceptual Deterioration for Cognitive Aging Research <i>Bruce A. Schneider and M. Kathleen Pichora-Fuller</i>	155
4 Attention and Aging: A Functional Perspective <i>Joan M. McDowd and Raymond J. Shaw</i>	221
5 Human Memory <i>Rose T. Zacks, Lynn Hasher, and Karen Z. H. Li</i>	293
6 Language and Speech <i>Arthur Wingfield and Elizabeth A. L. Stine-Morrow</i>	359
7 Metacognition in Adulthood and Old Age <i>Christopher Hertzog and David F. Hultsch</i>	417

8	Methodological Assumptions in Cognitive Aging Research	467
	<i>Timothy A. Salthouse</i>	
9	Cognitive Functioning in Very Old Age	499
	<i>Lars Bäckman, Brent J. Small, Åke Wahlin, and Maria Larsson</i>	
10	Human Factors, Applied Cognition, and Aging	559
	<i>Wendy A. Rogers and Arthur D. Fisk</i>	
11	Emotion and Cognition	593
	<i>Derek M. Isaacowitz, Susan Turk Charles, and Laura L. Carstensen</i>	
12	Life-Span Perspectives on Self, Personality, and Social Cognition	633
	<i>Ursula M. Staudinger and Monisha Pasupathi</i>	
13	Closing Comments	689
	<i>Timothy A. Salthouse and Fergus I. M. Craik</i>	
	Author Index	705
	Subject Index	751
