Contents	V
Preface	VII
Foreword	IX
Acknowledgements	XI
Introduction	XIII
I. PROTOZOA	1
1. Introduction	3
2. Amoebiasis	5
3. Non-intestinal amoebiasis	11
4. Giardiasis	17
5. Malaria	21
6. Toxoplasmosis	39
7. Pneumocystosis	47
8. Leishmaniasis	51
9. Trypanosomiasis	59
10. Cryptosporidiosis	65
11. Microsporidiosis	69
12. Isosporiasis including coccidian/cyanobacterium-like body infection (CLB)	73
II. NEMATODES	77
13. Strongyloidiasis	79
14. Enterobiasis (oxyuriasis)	83
15. Ascaris Rumbrioides (Round Worm)	87
16. Hookworm infestation	91
17. Trichuriasis (Whipworm Infection)	95

18.	Toxocariasis	99
19.	Trichinosis.....	103
20.	Angiostrongyliasis	107
21.	Anisakiasis.....	111
22.	Gnathostomiasis.....	115
23.	General features of filarial nematodes	119
24.	Dirofilariasis	121
25.	Lymphatic filariasis.....	125
26.	Non-lymphatic filariasis	131
III.	TREMATODES General features	137
27.	Schistosomiasis.....	139
28.	Clonorchiasis and opisthorchiasis.....	147
29.	Fascioliasis.....	151
30.	Paragonimiasis	155
IV.	CESTODES General features.....	159
31.	Taeniasis and cysticercosis	161
32.	Echinococcosis (hydatid disease)	167
33.	Sparganosis	173
34.	Coenurosis.....	177
V.	ARTHROPODS	181
35.	Myiasis	183
36.	Scabies and pyemote mite infection	187
37.	Pediculosis	191
38.	Tungiasis	195
VI.	BACTERIAL INFECTIONS.....	197
39.	Atypical mycobacteriosis.....	199
40.	Tuberculosis.....	207
41.	Leprosy.....	231
42.	Typhoid and paratyphoid fevers	239
43.	Melioidosis	245
44.	Cholera	251
45.	Plague.....	257
46.	Donovanosis (granuloma inguinale).....	263
VII.	OTHER INFECTIONS.....	267
47.	Rickettsial infections (scrub typhus, murine typhus and the spotted fever group).....	269
48.	Arboviral infections including dengue fever, Japanese B encephalitis, Australian encephalitis and Ross River fever	279
49.	Rabies.....	291
VIII.	EMERGENCY DEPARTMENT PRESENTATION.....	299
	Appendix	317
	Index.....	319
