## Part I. General Virology

1. The Origins of Virology .....	3
<i>Arnold J. Levine</i>	
2. Principles of Virology .....	19
<i>Richard C. Condit</i>	
3. Principles of Virus Structure .....	53
<i>Stephen C. Harrison</i>	
4. Virus Entry and Uncoating .....	87
<i>John A. T. Young</i>	
5. Replication Strategies of RNA Viruses .....	105
<i>L. Andrew Ball</i>	
6. Replication Strategies of DNA Viruses .....	119
<i>Daniel DiMaio and Donald M. Coen</i>	
7. Virus–Host Cell Interactions .....	133
<i>David M. Knipe, Charles E. Samuel, and Peter Palese</i>	
8. Virus Assembly .....	171
<i>Eric Hunter</i>	
9. Pathogenesis of Viral Infections .....	199
<i>Kenneth L. Tyler and Neal Nathanson</i>	
10. Cell Transformation by Viruses .....	245
<i>Joseph R. Nevins</i>	
11. The Immune Response to Viruses .....	285
<i>J. Lindsay Whitton and Michael B. A. Oldstone</i>	
12. Interferons and Other Cytokines .....	321
<i>Christine A. Biron and Ganes C. Sen</i>	
13. Virus Vectors and Their Applications .....	353
<i>Alexander Pfeifer and Inder M. Verma</i>	
14. Plant Viruses .....	377
<i>Sondra G. Lazarowitz</i>	
15. Insect Viruses .....	443
<i>Paul D. Friesen and Lois K. Miller</i>	
16. Viruses of Yeasts, Fungi, and Parasitic Microorganisms .....	473
<i>Reed B. Wickner</i>	
17. Bacteriophages .....	503
<i>Allan M. Campbell</i>	

## Part II. Specific Virus Families

18.	<i>Picornaviridae: The Viruses and Their Replication</i> . . . . .	529
	<i>Vincent R. Racaniello</i>	
19.	<i>Togaviridae: The Viruses and Their Replication</i> . . . . .	567
	<i>Sondra Schlesinger and Milton J. Schlesinger</i>	
20.	<i>Flaviviridae: The Viruses and Their Replication</i> . . . . .	589
	<i>Brett D. Lindenbach and Charles M. Rice</i>	
21.	<i>Coronaviridae: The Viruses and Their Replication</i> . . . . .	641
	<i>Michael M. C. Lai and Kathryn V. Holmes</i>	
22.	<i>Rhabdoviridae: The Viruses and Their Replication</i> . . . . .	665
	<i>John K. Rose and Michael A. Whitt</i>	
23.	<i>Paramyxoviridae: The Viruses and Their Replication</i> . . . . .	689
	<i>Robert A. Lamb and Daniel Kolakofsky</i>	
24.	<i>Orthomyxoviridae: The Viruses and Their Replication</i> . . . . .	725
	<i>Robert A. Lamb and Robert M. Krug</i>	
25.	<i>Bunyaviridae: The Viruses and Their Replication</i> . . . . .	771
	<i>Connie S. Schmaljohn and Jay W. Hooper</i>	
26.	<i>Reoviruses and Their Replication</i> . . . . .	793
	<i>Max L. Nibert and Leslie A. Schiff</i>	
27.	<i>Retroviridae: The Retroviruses and Their Replication</i> . . . . .	843
	<i>Stephen P. Goff</i>	
28.	<i>HIVs and Their Replication</i> . . . . .	913
	<i>Eric O. Freed and Malcolm A. Martin</i>	
29.	<i>Polyomaviridae: The Viruses and Their Replication</i> . . . . .	985
	<i>Charles N. Cole and Suzanne D. Conzen</i>	
30.	<i>Papillomaviruses and Their Replication</i> . . . . .	1019
	<i>Peter M. Howley and Douglas R. Lowy</i>	
31.	<i>Adenoviridae: The Viruses and Their Replication</i> . . . . .	1053
	<i>Thomas E. Shenk</i>	
32.	<i>Parvoviridae: The Viruses and Their Replication</i> . . . . .	1089
	<i>Nicholas Muzyczka and Kenneth I. Berns</i>	
33.	<i>Herpes Simplex Viruses and Their Replication</i> . . . . .	1123
	<i>Bernard Roizman and David M. Knipe</i>	
34.	<i>Epstein-Barr Virus and Its Replication</i> . . . . .	1185
	<i>Elliott Kieff and Alan B. Rickinson</i>	
35.	<i>Poxviridae: The Viruses and Their Replication</i> . . . . .	1249
	<i>Bernard Moss</i>	
36.	<i>Hepadnaviridae: The Viruses and Their Replication</i> . . . . .	1285
	<i>Donald Ganem and Robert J. Schneider</i>	
37.	<i>Prions</i> . . . . .	1333
	<i>Stanley B. Prusiner</i>
