Introduction	xvii
Sue Eckstein	

## **P A R T I**

### **Section I Fundamental ethical and legal considerations**

---

1	The ethics of clinical research	5
	Calliope (Bobbie) Farsides	
2	Research ethics committees and the law	15
	Ian Kennedy and Phil Bates	
3	The regulation of medical research: a historical overview	18
	Richard H. Nicholson	

### **Section II The research process**

---

4	The regulation of medical research in the UK	25
	Pamela Charnley Nickols	
5	Observational and epidemiological research	34
	Nick Dunn	
6	Social survey research	37
	Crispin Jenkinson	
7	Approaching qualitative research	40
	Alan Cribb	
8	Complementary and alternative medicine: challenges for research ethics committees	49
	Julie Stone	

## Contents

---

9	The ethical review of student research in the context of the governance arrangements for research ethics committees Richard Ashcroft and Michael Parker	53
10	The ethics of genetic research Ruth Chadwick	57
11	Research or audit? Anthony Madden	60
12	Randomised controlled trials Hazel Inskip and Richard W. Morris	61
13	Determining the study size Hazel Inskip and Richard W. Morris	64
14	Risk assessment for research participants Kenneth Calman	67
15	Absorbed radiation in patient and volunteer studies submitted to the ethical committee: a memorandum Keith Britton and Rosemary Foley	69
16	A guide to the use of radioactive materials and radiological procedures for research purposes Niall Moore	72
17	Indemnity in medical research Janet Jeffs and Richard Mayon-White	75
18	The prevention and management of fraud and misconduct: the role of the LREC Jennifer Blunt and Frank Wells	79

### **Section III Protecting the interests of research participants**

#### **Section III(A) General principles**

---

19	Understanding clinical trials: a model for providing information to potential participants Philippa Easterbrook and Joan Houghton	85
20	The law relating to consent Andrew Grubb, Rosamund Scott, Penney Lewis and Phil Bates	89
21	Writing information for potential research participants Elizabeth Mellor, David K. Raynor and Jonathan Silcock	96
22	The law relating to confidentiality Andrew Grubb, Ian Kennedy and Sabine Michalowski	100

**Section III(B) Vulnerable participants**

---

23	Research involving vulnerable participants: some ethical issues	105
	Sue Eckstein	

**Section IV International research**

---

24	The ethics of research related to healthcare in developing countries	113
	Nuffield Council on Bioethics	

**PART II**

**Section I Fundamental legal and ethical considerations**

---

25	Ethical principles for medical research involving human subjects	123
	World Medical Association	
26	The Belmont Report: ethical principles and guidelines for the protection of human subjects of research	126
	National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research	
27	ICH Good Clinical Practice Guideline	133
	International Conference on Harmonisation of Technical Requirements for Registration of Pharmaceuticals for Human Use	
28	Governance arrangements for NHS research ethics committees	150
	Department of Health	
29	The research governance framework for health and social care	165
	Department of Health	
30	EU Clinical Directive 2001/20/EC of the European Parliament and of the Council of 4 April 2001 on the approximation of the laws, regulations, and administrative provisions of the Member States relating to the implementation of good clinical practice in the conduct of clinical trials on medicinal products for human use	184
	The European Parliament and the Council of the European Union	
31	European Convention on human rights and biomedicine (ETS 164) and additional protocol on the prohibition of cloning human beings	196
	Council of Europe	

## **Section II The research process**

### **Section II(A) General guidelines**

---

32	Good research practice Medical Research Council	207
33	Research: the role and responsibilities of doctors General Medical Council	214
34	Guidelines for company-sponsored safety assessment of marketed medicines (SAMM) Association of the British Pharmaceutical Industry	224
35	Guidelines for medical experiments in non-patient human volunteers Association of the British Pharmaceutical Industry	228
36	Facilities for non-patient volunteer studies Association of the British Pharmaceutical Industry	234
37	Multi-centre research in the NHS – the process of ethical review when there is no local researcher Central Office for Research Ethics Committees	237
38	Medical devices regulations and research ethics committees Medical Devices Agency	241
39	NHS indemnity – arrangements for clinical negligence claims in the NHS Department of Health	243
40	Clinical trial compensation guidelines Association of the British Pharmaceutical Industry	254
41	Research ethics: guidance for nurses involved in research or any investigative project involving human subjects Royal College of Nursing	257
42	Ethical principles for conducting research with human participants The British Psychological Society	269
43	Statement of ethical practice British Sociological Association	274

### **Section II(B) Tissue and genes**

---

44	Human tissue and biological samples for use in research Medical Research Council	281
----	--	-----

45	Transitional guidelines to facilitate changes in procedures for handling 'surplus' and archival material from human biological samples	300
	Royal College of Pathologists	
46	Code of practice on the use of fetuses and fetal material in research and treatment (extracts from the Polkinghorne Report)	313
	The Stationery Office/Department of Health	
47	Guidance on the supply of fetal tissue for research, diagnosis and therapy	316
	Department of Health	
48	Guidance on making proposals to conduct gene therapy research on human subjects (seventh annual report – section 1)	318
	Gene Therapy Advisory Committee	
49	Report on the potential use of gene therapy in utero	329
	Gene Therapy Advisory Committee	
50	Human fertilisation and embryology authority – code of practice (extracts)	333
	Human Fertilisation and Embryology Authority	

### **Section III Protecting the interests of research participants**

#### **Section III(A) General principles**

---

51	Guidelines for researchers – patient information sheet and consent form	343
	Central Office for Research Ethics Committees	
52	ABPI Guidance note – patient information and consents for clinical trials	348
	Association of the British Pharmaceutical Industry	
53	The protection and use of patient information (HSG(96)18/LASSL (96)5)	351
	Department of Health	
54	The Caldicott Report on the review of patient-identifiable information – executive summary December 1997	365
	The Caldicott Committee, Department of Health	
55	Personal information in medical research	367
	Medical Research Council	
56	Use and disclosure of medical data – guidance on the application of the Data Protection Act, 1998, May 2002	391
	The Information Commissioner
