

# *Contents*

*Foreword by John H. Gibbons* ix

Introduction i

Chapter 1 Why Hydrogen? Why Now? ii

Chapter 2 Fuel Cell Basics 23

Chapter 3 The Path to Fuel Cell Commercialization 35

Chapter 4 Hydrogen Production 67

Chapter 5 Key Elements of a Hydrogen-Based  
Transportation System 89

Chapter 6 The Long Road to Commercialization of  
Fuel Cell Vehicles 115

Chapter 7 Global Warming and Scenarios for a  
Hydrogen Transition 125

Chapter 8 Coping with the Global Warming Century 143

Chapter 9 Hydrogen Partnerships and Pilots 175

Conclusion Choosing Our Future 187
