

Brief Contents

Part One

Organizations, Management, and the Networked Enterprise 1

Chapter 1	Information Systems in Global Business Today 2
Chapter 2	Global E-Business: How Businesses Use Information Systems 38
Chapter 3	Information Systems, Organizations, and Strategy 80
Chapter 4	Ethical and Social Issues in Information Systems 124
Part One Project	Analyzing Business Processes for an Enterprise System 165

Part Two

Information Technology Infrastructure 167

Chapter 5	IT Infrastructure and Emerging Technologies 168
Chapter 6	Foundations of Business Intelligence: Databases and Information Management 222
Chapter 7	Telecommunications, the Internet, and Wireless Technology 260
Chapter 8	Securing Information Systems 312
Part Two Project	Creating a New Internet Business 351

Part Three

Key System Applications for the Digital Age 353

Chapter 9	Achieving Operational Excellence and Customer Intimacy: Enterprise Applications 354
Chapter 10	E-Commerce: Digital Markets, Digital Goods 388
Chapter 11	Managing Knowledge 428
Chapter 12	Enhancing Decision Making 470
Part Three Project	Designing an Enterprise Information Portal 508

Part Four

Building and Managing Systems 509

Chapter 13	Building Systems 510
Chapter 14	Project Management: Establishing the Business Value of Systems and Managing Change 552
Chapter 15	Managing Global Systems 592
Part Four Project	Redesigning Business Processes for Healthlite Yogurt Company 629

International Case Study 631

Complete Contents

Part One Organizations, Management, and the Networked Enterprise 1

Chapter 1 Information Systems in Global Business Today 2

Opening Case: Smart Systems and Smart Ways of Working Help Toyota Become Number One 3

- 1.1 The Role of Information Systems in Business Today 5
Globalization Opportunities 7 • The Emerging Digital Firm 7 • Strategic Business Objectives of Information Systems 8

◆**Interactive Session: Organizations** Virtual Management at Accenture 9

- 1.2 Perspectives on Information Systems 13
What is an Information System? 14 • Dimensions of Information Systems 16

◆**Interactive Session: Technology** UPS Competes Globally with Information Technology 20

It Isn't Just Technology: A Business Perspective on Information Systems 22 • Complementary Assets: Organizational Capital and the Right Business Model 24

- 1.3 Contemporary Approaches to Information Systems 26
Technical Approach 26 • Behavioral Approach 27 • Approach of This Text: Sociotechnical Systems 27

- 1.4 Hands-on MIS 29
Understanding Information Systems Requirements: Dirt Bikes USA 29 • Improving Decision Making: Using Databases to Analyze Sales Trends 30 • Achieving Operational Excellence: Using Internet Software to Budget for Shipping Costs 31

Learning Track Module: How Much Does IT Matter? 31

Summary 32 • Key Terms 33 • Review Questions 33 • Discussion Questions 33 • Video Case 33 • Teamwork: Analyzing a Business System 34

◆**Case Study:** Morgan Stanley's Return on System Noninvestment 35

Chapter 2 Global E-Business: How Businesses Use Information Systems 38

Opening Case: Information Systems Join the Tupperware Party 39

- 2.1 Business Processes and Information Systems 41
Business Processes 41 • How Information Technology Enhances Business Processes: Efficiency and Transformation 43
- 2.2 Types of Business Information Systems 44
Systems from a Functional Perspective 44

- ◆**Interactive Session: Organizations** Information Systems Help Kia Solve Its Quality Problems 48
 - Systems from a Constituency Perspective 52
- ◆**Interactive Session: Management** Managing Travel Expenses: New Tools, New Savings 55
 - Relationship of Systems to One Another 58
- 2.3 Systems That Span the Enterprise 59
 - Enterprise Applications 59 • Intranets and Extranets 66 • E-Business, E-Commerce, and E-Government 67
- 2.4 The Information Systems Function in Business 67
 - The Information Systems Department 68 • Organizing the Information Systems Function 68
- 2.5 Hands-on MIS 70
 - Analyzing Financial Performance: Dirt Bikes USA 71 • Improving Decision Making: Using a Spreadsheet to Select Suppliers 72 • Achieving Operational Excellence: Using Internet Software to Plan Efficient Transportation Routes 73
- Learning Track Module:** Challenges of Using Business Information Systems 73
 - Summary 74 • Key Terms 75 • Review Questions 75 • Discussion Questions 76 • Video Case 76 • Teamwork: Describing Management Decisions and Systems 76
- ◆**Case Study:** Can Information Systems Help Prevent a Public Health Crisis? 77

Chapter 3

Information Systems, Organizations, and Strategy 80

- Opening Case:** Will the New US Airways Be Able to Fly? 81
- 3.1 Organizations and Information Systems 83
 - What Is an Organization? 84 • Features of Organizations 86
- 3.2 How Information Systems Impact Organizations and Business Firms 90
 - Economic Impacts 90 • Organizational and Behavioral Impacts 92 • The Internet and Organizations 95 • Implications for the Design and Understanding of Information Systems 95
- 3.3 Using Information Systems to Achieve Competitive Advantage 95
 - Porter's Competitive Forces Model 96 • Information System Strategies for Dealing with Competitive Forces 97
- ◆**Interactive Session: Technology** 7-Eleven Stores Ask the Customer by Asking the Data 101
 - The Internet's Impact on Competitive Advantage 103 • The Business Value Chain Model 104
- ◆**Interactive Session: Organizations** Amazon.com: An Internet Giant Fine-Tunes Its Strategy 107
 - Synergies, Core Competencies, and Network-Based Strategies 109
- 3.4 Using Systems for Competitive Advantage: Management Issues 113
 - Sustaining Competitive Advantage 113 • Performing a Strategic Systems Analysis 114 • Managing Strategic Transitions 114

- 3.5 Hands-on MIS 115
 Analyzing Competitive Strategy: Dirt Bikes USA 115 • Improving Decision Making: Using a Database to Clarify Business Strategy 115 • Improving Decision Making: Using Web Tools to Configure and Price an Automobile 117
- Learning Track Module:** The Changing Business Environment for Information Technology 117
- Summary 118 • Key Terms 119 • Review Questions 119 • Discussion Questions 120 • Video Case 120 • Teamwork: Identifying Opportunities for Strategic Information Systems 120
- ◆ **Case Study:** Blockbuster vs. Netflix: Which Will Win Out? 121

Chapter 4

Ethical and Social Issues in Information Systems 124

- Opening Case:** Does Location Tracking Threaten Privacy? 125
- 4.1 Understanding Ethical and Social Issues Related to Systems 127
 A Model for Thinking About Ethical, Social, and Political Issues 129 • Five Moral Dimensions of the Information Age 130 • Key Technology Trends That Raise Ethical Issues 130
- ◆ **Interactive Session: Management** Data for Sale 133
- 4.2 Ethics in an Information Society 135
 Basic Concepts: Responsibility, Accountability, and Liability 135 • Ethical Analysis 136 • Candidate Ethical Principles 137 • Professional Codes of Conduct 137 • Some Real-World Ethical Dilemmas 138
- 4.3 The Moral Dimensions of Information Systems 139
 Information Rights: Privacy and Freedom in the Internet Age 139 • Property Rights: Intellectual Property 145 • Accountability, Liability, and Control 148 • System Quality: Data Quality and System Errors 149 • Quality of Life: Equity, Access, and Boundaries 149
- ◆ **Interactive Session: Organizations** The Internet: Friend or Foe to Children? 151
- 4.4 Hands-on MIS 157
 Developing a Web Site Privacy Policy: Dirt Bikes USA 157 • Improving Operational Excellence: Creating a Simple Web Site Using Web Page Development Tools 158 • Improving Decision Making: Using Internet Newsgroups for Online Market Research 158
- Learning Track Module:** Developing a Corporate Code of Ethics for Information Systems 159
- Summary 159 • Key Terms 160 • Review Questions 160 • Discussion Questions 161 • Video Case 161 • Teamwork: Developing a Corporate Ethics Code 161
- ◆ **Case Study:** Is the Telephone Company Violating Your Privacy? 162
- ◆ **Part One Project:** Analyzing Business Processes for an Enterprise System 165

Part Two Information Technology Infrastructure 167

Chapter 5 IT Infrastructure and Emerging Technologies 168

Opening Case: DreamWorks Animation Turns to Technology for Production Support 169

- 5.1 IT Infrastructure 171
 - Defining IT Infrastructure 171 • Evolution of IT Infrastructure: 1950–2007 173 • Technology Drivers of Infrastructure Evolution 177
- 5.2 Infrastructure Components 183
 - Computer Hardware Platforms 184 • Computer Software Platforms 186 • Data Management and Storage 187 • Networking/Telecommunications Platforms 188 • Internet Platforms 188 • Consulting and System Integration Services 189
- 5.3 Hardware Platform Trends and Emerging Technologies 189
 - The Integration of Computing and Telecommunications Platforms 189 • Grid Computing 190 • On-Demand Computing (Utility Computing) 191 • Autonomic Computing and Edge Computing 191 • Virtualization and Multicore Processors 193
- 5.4 Software Platform Trends and Emerging Technologies 194
 - The Rise of Linux and Open-Source Software 195
- ◆**Interactive Session: Technology** Is It Time for Open Source? 196
 - Java Is Everywhere 197 • Software for Enterprise Integration 198 • Ajax, Mashups, Web 2.0, and Web-Based Software Applications 202 • Software Outsourcing 204
- ◆**Interactive Session: Technology** Application Service Providers: Two Tales 207
- 5.5 Management Issues 208
 - Dealing with Infrastructure Change 208 • Management and Governance 209 • Making Wise Infrastructure Investments 209
- 5.6 Hands-on MIS 212
 - Improving Decision Making: Making the Rent vs. Buy Decision for Hardware and Software: Dirt Bikes USA 212 • Improving Decision Making: Using a Spreadsheet to Evaluate Hardware and Software Options 213 • Improving Decision Making: Using Web Research to Budget for a Sales Conference 214

Learning Track Modules: How Computer Hardware and Software Work; The Open Source Software Initiative 214

Summary 215 • Key Terms 216 • Review Questions 217 • Discussion Questions 217 • Video Case 217 • Teamwork: Evaluating Server Operating Systems 217

◆**Case Study:** Merrill Lynch Connects Past and Future Technology 218

Chapter 6 Foundations of Business Intelligence: Databases and Information Management 222

Opening Case: NASCAR Races to Manage Its Data 223

- 6.1 Organizing Data in a Traditional File Environment 225

- File Organization Concepts 226 • Problems with the Traditional File Environment 227
- 6.2 The Database Approach to Data Management 229
 - Database Management Systems 229 • Capabilities of Database Management Systems 233 • Designing Databases 236
- 6.3 Using Databases to Improve Business Performance and Decision Making 238
 - Data Warehouses 239 • Business Intelligence, Multidimensional Data Analysis, and Data Mining 240
- ◆**Interactive Session: Organizations** DNA Databases: Crime-Fighting Weapon or Threat to Privacy? 244
 - Databases and the Web 245
- 6.4 Managing Data Resources 247
 - Establishing an Information Policy 247 • Ensuring Data Quality 247
- ◆**Interactive Session: Management** What Can Be Done About Data Quality? 249
- 6.5 Hands-on MIS 250
 - Improving Decision Making: Redesigning the Customer Database: Dirt Bikes USA 250 • Achieving Operational Excellence: Building a Relational Database for Inventory Management 251 • Improving Decision Making: Searching Online Databases for Overseas Business Resources 252
- Learning Track Modules:** Database Design, Normalization, and Entity-Relationship Diagramming; Introduction to SQL; Hierarchical and Network Data Models 253
- Summary 254 • Key Terms 255 • Review Questions 255 • Discussion Questions 256 • Video Case 256 • Teamwork: Identifying Entities and Attributes in an Online Database 256
- ◆**Case Study:** Panasonic Creates a Single Version of the Truth from Its Data 257

Chapter 7

Telecommunications, the Internet, and Wireless Technology 260

- Opening Case:** Hyatt Regency Osaka Uses Wireless Networking for High-Touch Service 261
- 7.1 Telecommunications and Networking in Today's Business World 263
 - Networking and Communication Trends 263 • What Is a Computer Network? 264 • Key Digital Networking Technologies 266
- 7.2 Communications Networks 269
 - Signals: Digital vs. Analog 269 • Types of Networks 269 • Physical Transmission Media 272 • Broadband Network Services and Technologies 274
- 7.3 The Internet 276
 - What Is the Internet? 277 • Internet Addressing and Architecture 277 • Internet Services 280 • The World Wide Web 281 • Intranets and Extranets 286 • Technologies and Tools for Communication and E-Business 286
- ◆**Interactive Session: Management** Monitoring Employees on Networks: Unethical or Good Business? 288

7.4	The Wireless Revolution 291
	Wireless Devices 291 • Cellular Systems 292 • Wireless Computer Networks and Internet Access 294 • RFID and Wireless Sensor Networks 297
	◆ Interactive Session: Organizations Wal-Mart Grapples with RFID 300
7.5	Hands-on MIS 302
	Achieving Operational Excellence: Using Internet Tools to Increase Efficiency and Productivity: Dirt Bikes USA 302 • Improving Decision Making: Using Spreadsheet Software to Evaluate Wireless Services 302 • Achieving Operational Excellence: Using Web Search Engines for Business Research 303
	Learning Track Modules: Computing and Communications Services Provided by Commercial Telecommunications Vendors; Cellular System Generations; Wireless Applications for CRM, SCM, and Healthcare 303
	Summary 304 • Key Terms 306 • Review Questions 307 • Discussion Questions 307 • Video Case 307 • Teamwork: Comparing Mobile Internet Access Devices 307
	◆ Case Study: Google Takes On the World 308

Chapter 8

	Securing Information Systems 312
	Opening Case: Phishing: A Costly New Sport for Internet Users 313
8.1	System Vulnerability and Abuse 315
	Why Systems Are Vulnerable 316 • Malicious Software: Viruses, Worms, Trojan Horses, and Spyware 319 • Hackers and Cyber vandalism 321
	◆ Interactive Session: Technology Bot Armies and Network Zombies 323
	Computer Crime and Cyberterrorism 324 • Internal Threats: Employees 327 • Software Vulnerability 327
8.2	Business Value of Security and Control 328
	Legal and Regulatory Requirements for Electronic Records Management 328 • Electronic Evidence and Computer Forensics 329
8.3	Establishing a Framework for Security and Control 330
	Risk Assessment 330 • Security Policy 331 • Ensuring Business Continuity 332 • The Role of Auditing 334
8.4	Technologies and Tools for Security 335
	Access Control 335 • Firewalls, Intrusion Detection Systems, and Antivirus Software 337 • Securing Wireless Networks 339 • Encryption and Public Key Infrastructure 339
	◆ Interactive Session: Management Unilever Secures Its Mobile Devices 340
8.5	Hands-on MIS 343
	Achieving Operational Excellence: Developing a Disaster Recovery Plan: Dirt Bikes USA 343 • Improving Decision Making: Using Spreadsheet Software to Perform a Security Risk Assessment 343 • Improving Decision Making: Evaluating Security Outsourcing Services 344
	Learning Track Modules: General and Application Controls for Information Systems; Management Challenges of Security and Control; Software Vulnerability and Reliability 344

Summary 345 • Key Terms 346 • Review Questions 346 • Discussion Questions 347 • Video Case 347 • Teamwork: Evaluating Security Software Tools 347

◆**Case Study:** A Stolen Laptop at the Department of Veteran Affairs: The Worst Data Theft Ever? 348

◆**Part Two Project:** Creating a New Internet Business 351

Part Three Key System Applications for the Digital Age 353

Chapter 9 Achieving Operational Excellence and Customer Intimacy: Enterprise Applications 354

Opening Case: Whirlpool Fixes Its Supply Chain 355

9.1 Enterprise Systems 357

What Are Enterprise Systems? 357 • Enterprise Software 359 • Business Value of Enterprise Systems 360

9.2 Supply Chain Management Systems 360

The Supply Chain 360 • Information and Supply Chain Management 361 • Supply Chain Management Applications 364 • Supply Chain Management and the Internet 365 • Business Value of Supply Chain Management Systems 368

9.3 Customer Relationship Management Systems 368

What Is Customer Relationship Management? 368

◆**Interactive Session: Technology** IHOP Cooks Customer Data to Order 370

Customer Relationship Management Software 371 • Operational and Analytical CRM 374 • Business Value of Customer Relationship Management Systems 375

9.4 Enterprise Applications: New Opportunities and Challenges 376

Enterprise Application Challenges 376 • Extending Enterprise Software 377

◆**Interactive Session: Organizations** Invacare Struggles with Its Enterprise System Implementation 378

9.5 Hands-on MIS 380

Achieving Operational Excellence: Identifying Supply Chain Management Solutions: Dirt Bikes USA 380 • Improving Decision Making: Using Database Software to Manage Customer Service Requests 380 • Achieving Operational Excellence: Evaluating Supply Chain Management Services 381

Learning Track Modules: SAP Business Process Map; Best Practices Business Processes in CRM Software 382

Summary 382 • Key Terms 383 • Review Questions 384 • Discussion Questions 384 • Video Case 384 • Teamwork: Analyzing Enterprise Application Vendors 384

◆**Case Study:** Limited Brands Consolidates Its Supply Chain Management 385

Chapter 10

E-Commerce: Digital Markets, Digital Goods 388

Opening Case: Major League Baseball Hits a Home Run with Information Systems 389

- 10.1 Electronic Commerce and the Internet 391
 E-Commerce Today 392 • Why E-Commerce Is Different 393 • Key Concepts in E-Commerce: Digital Markets and Digital Goods 396 • Internet Business Models 399

◆**Interactive Session: Management** The Allure of MySpace 402

- 10.2 Electronic Commerce 404
 Types of Electronic Commerce 404 • Achieving Customer Intimacy: Interactive Marketing, Personalization, and Self-Service 405

◆**Interactive Session: Organizations** Stonyfield Farm Blogs for Organic Communication 408

Business-to-Business (B2B) Electronic Commerce: New Efficiencies and Relationships 410

- 10.3 M-Commerce 413
 M-Commerce Services and Applications 413 • Accessing Information from the Wireless Web 415 • M-Commerce Challenges 415

- 10.4 Electronic Commerce Payment Systems 416
 Types of Electronic Payment Systems 416 • Digital Payment Systems for M-Commerce 417

- 10.5 Hands-on MIS 418
 Achieving Operational Excellence: Developing an E-Commerce Strategy: Dirt Bikes USA 418 • Improving Decision Making: Using Spreadsheet Software to Analyze a Dot-Com Business 419 • Achieving Operational Excellence: Evaluating E-Commerce Hosting Services 419

Learning Track Modules: E-Commerce Challenges: The Story of Online Groceries; Build an E-Commerce Business Plan 420

Summary 421 • Key Terms 422 • Review Questions 423 • Discussion Questions 423 • Video Case 423 • Teamwork: Performing a Competitive Analysis of E-Commerce Sites 423

◆**Case Study:** Can eBay Continue Growing? 424

Chapter 11

Managing Knowledge 428

Opening Case: Content Management Makes Southern Company a Top Utility Performer 429

- 11.1 The Knowledge Management Landscape 431
 Important Dimensions of Knowledge 432 • The Knowledge Management Value Chain 434 • Types of Knowledge Management Systems 436
- 11.2 Enterprise-Wide Knowledge Management Systems 437
 Structured Knowledge Systems 439 • Semistructured Knowledge Systems 440

◆**Interactive Session: Organizations** Stikeman Elliott Computerizes Its Brainpower 442

Knowledge Network Systems 444 • Supporting Technologies: Portals, Collaboration Tools, and Learning Management Systems 445

- ◆**Interactive Session: Technology** Sharing Knowledge with Social Bookmarking 446
- 11.3 Knowledge Work Systems 448
 - Knowledge Workers and Knowledge Work 448 • Requirements of Knowledge Work Systems 448 • Examples of Knowledge Work Systems 449
- 11.4 Intelligent Techniques 451
 - Capturing Knowledge: Expert Systems 452 • Organizational Intelligence: Case-Based Reasoning 455 • Fuzzy Logic Systems 455 • Neural Networks 457 • Genetic Algorithms 458 • Hybrid AI Systems 460 • Intelligent Agents 460
- 11.5 Hands-on MIS 461
 - Achieving Operational Excellence: Identifying Opportunities for Knowledge Management: Dirt Bikes USA 461 • Improving Decision Making: Building a Simple Expert System for Retirement Planning 462 • Improving Decision Making: Using Intelligent Agents for Comparison Shopping 463
- Learning Track Module:** Challenges of Knowledge Management Systems 463
 - Summary 463 • Key Terms 464 • Review Questions 465 • Discussion Questions 465 • Video Case 465 • Teamwork: Rating Knowledge Network Systems 465
- ◆**Case Study:** Can Knowledge Systems Help Boeing Trounce Airbus? 466

Chapter 12

Enhancing Decision Making 470

- Opening Case:** Procter & Gamble Restructures Its Supply Chain 471
- 12.1 Decision Making and Information Systems 473
 - Business Value of Improved Decision Making 474 • Types of Decisions 474 • The Decision-Making Process 476 • Managers and Decision Making in the Real World 477
- 12.2 Systems for Decision Support 480
 - Management Information Systems (MIS) 480 • Decision-Support Systems (DSS) 480 • Business Value of DSS 486
- ◆**Interactive Session: Technology** Renault Speeds Up Delivery with a New DSS 488
 - Data Visualization and Geographic Information Systems 490 • Web-Based Customer Decision-Support Systems 491
- ◆**Interactive Session: Management** Does CompStat Reduce Crime? 492
- 12.3 Executive Support Systems (ESS) 493
 - The Role of Executive Support Systems in the Firm 493 • Business Value of Executive Support Systems 494 • Executive Support Systems and the Digital Firm 495
- 12.4 Group Decision-Support Systems (GDSS) 496
 - What Is a GDSS? 496 • Overview of a GDSS Meeting 497 • Business Value of GDSS 498
- 12.5 Hands-on MIS 499
 - Improving Decision Making: Analyzing the Impact of Component Price Changes: Dirt Bikes USA 499 • Improving Decision Making: Using Pivot Tables to Analyze Sales Data 500 • Improving Decision Making: Using a Web-Based DSS for Retirement Planning 501

- Learning Track Module:** Building and Using Pivot Tables 501
 Summary 502 • Key Terms 503 • Review Questions 503 • Discussion
 Questions 504 • Video Case 504 • Teamwork: Designing a University GDSS 504
 ♦**Case Study:** Can Information Systems Make Your Doctor Better? 505
 ♦**Part Three Project:** Designing an Enterprise Information Portal 508

Part Four Building and Managing Systems 509

Chapter 13 Building Systems 510

- Opening Case:** A New Ordering System for Girl Scout Cookies 511
- 13.1 Systems as Planned Organizational Change 514
 Systems Development and Organizational Change 514 • Business Process
 Reengineering 515
- ♦**Interactive Session: Organizations** Business Process Redesign at the Small
 Business Administration 518
 Process Improvement: Business Process Management, Total Quality
 Management, and Six Sigma 522
- 13.2 Overview of Systems Development 524
 Systems Analysis 524 • Systems Design 525 • Completing the Systems
 Development Process 526 • Modeling and Designing Systems: Structured
 and Object-Oriented Methodologies 529
- 13.3 Alternative Systems-Building Approaches 534
 Traditional Systems Life Cycle 534 • Prototyping 534 • End-User
 Development 536 • Application Software Packages and Outsourcing 537
- 13.4 Application Development for the Digital Firm 539
 Rapid Application Development (RAD) 539
- ♦**Interactive Session: Management** How to Get Outsourcing Right: Avoid Getting
 It Wrong 540
 Component-Based Development and Web Services 541
- 13.5 Hands-on MIS 542
 Achieving Operational Excellence: Designing an Employee Training and
 Skills Tracking System and Database: Dirt Bikes USA 542 • Improving
 Decision Making: Using Database Software to Design a Customer System for
 Auto Sales 544 • Achieving Operational Excellence: Redesigning Business
 Processes for Web Procurement 545
- Learning Track Modules:** Unified Modeling Language (UML); Primer on
 Business Process Design and Documentation 545
 Summary 546 • Key Terms 547 • Review Questions 548 • Discussion
 Questions 548 • Video Case 548 • Teamwork: Preparing Web Site Design
 Specifications 548
- ♦**Case Study:** Can the U.S. Army Reserve Pay Soldiers Correctly? 549

Chapter 14

Project Management: Establishing the Business Value of Systems and Managing Change 552

Opening Case: A.G. Edwards Turns Around Its Project Management 553

14.1 The Importance of Project Management 555

Runaway Projects and System Failure 556 • Project Management Objectives 557

14.2 Selecting Projects 557

Management Structure for Information Systems Projects 558 • Linking Systems Projects to the Business Plan 559 • Enterprise Analysis and Critical Success Factors 559 • Portfolio Analysis 563 • Scoring Models 564

14.3 Establishing the Business Value of Information Systems 565

Information System Cost and Benefits 565 • Capital Budgeting for Information Systems 565 • Case Example: Capital Budgeting for a New Supply Chain Management System 567 • Real Options Pricing Models 571 • Limitations of Financial Models 571

14.4 Managing Project Risk 572

Dimensions of Project Risk 572 • Change Management and the Concept of Implementation 573 • Controlling Risk Factors 575

◆**Interactive Session: Management** Managing IT in the Merger and Acquisition Game 576

Designing for the Organization 580

◆**Interactive Session: Organizations** Getting Buy-In and ROI for CRM 581

Project Management Software Tools 583

14.5 Hands-on MIS 584

Improving Decision Making: Using Spreadsheet Software to Analyze the Return on a New System Investment: Dirt Bikes USA 584 • Improving Decision Making: Using Spreadsheet Software for Capital Budgeting for a New CAD System 584 • Improving Decision Making: Using Web Tools for Buying and Financing a Home 585

Learning Track Module: Information Technology Investments and Productivity 585

Summary 586 • Key Terms 587 • Review Questions 587 • Discussion Questions 588 • Video Case 588 • Teamwork: Identifying Implementation Problems 588

◆**Case Study:** What Went Wrong with Maine's New Medicaid System? 589

Chapter 15

Managing Global Systems 592

Opening Case: Think Global, Act Local: DHL Builds a Global IT Organization 593

15.1 The Growth of International Information Systems 596

Developing an International Information Systems Architecture 597 • The Global Environment: Business Drivers and Challenges 598 • State of the Art 601

15.2 Organizing International Information Systems 601

Global Strategies and Business Organization 602 • Global Systems to Fit the Strategy 603 • Reorganizing the Business 604

◆ Interactive Session: Organizations	Avnet: Developing Systems to Support Global Strategy 605
15.3	Managing Global Systems 606
	A Typical Scenario: Disorganization on a Global Scale 607 • Global Systems Strategy 608 • The Management Solution 610
15.4	Technology Issues and Opportunities for Global Value Chains 611
	Technology Challenges of Global Systems 612 • Managing Global Software Development 614
15.5	Hands-on MIS 617
	Achieving Operational Excellence: Expanding International Sales: Dirt Bikes USA 617
◆ Interactive Session: Management	Offshore Outsourcing: Good, Bad, Or Does Not Make a Difference? 618
	Achieving Operational Excellence: Building a Job Database and Web Page for an International Consulting Firm 620 • Improving Decision Making: Conducting International Marketing and Pricing Research 620
	Summary 622 • Key Terms 623 • Review Questions 623 • Discussion Questions 623 • Video Case 623 • Teamwork: Identifying Technologies for Global Business Strategies 623
◆ Case Study:	Nestlé Tries for an All-for-One Global Strategy 624
◆ Part Four Project:	Redesigning Business Processes for Healthlite Yogurt Company 629

International Case Study 1: Mobile Customer Services at Deutsche Lufthansa 631

International Case Study 2: A Review of a Water Quality Information Management System for a Water Management Authority in South Africa and Swaziland (on the Laudon Web site and Student CD-ROM)
