

Contents

Unit One Introduction to Nursing Research, 1

- 1 Discovering the World of Nursing Research, 1**
 - Definition of Nursing Research, 1
 - Framework Linking Nursing Research to the World of Nursing, 2
 - Significance of Research in Building an Evidence-Based Practice for Nursing, 11
- 2 Evolution of Research in Building Evidence-Based Nursing Practice, 17**
 - Historical Development of Research in Nursing, 17
 - Methodologies for Developing Research Evidence in Nursing, 23
 - Classification of Research Methodologies Presented in this Text, 25
 - Introduction to Best Research Evidence for Practice, 28
- 3 Introduction to Quantitative Research, 34**
 - Concepts Relevant to Quantitative Research, 34
 - Steps of the Quantitative Research Process, 38
 - Selecting a Research Design, 43
 - Types of Quantitative Research, 49
- 4 Introduction to Qualitative Research, 57**
 - Perspective of the Qualitative Researcher, 57
 - Approaches to Qualitative Research, 59

Unit Two The Research Process, 73

- 5 Research Problem and Purpose, 73**
 - What Is a Research Problem and Purpose?, 73
 - Sources of Research Problems, 75
 - Formulating a Research Problem and Purpose, 81

Example of Problem and Purpose Development, 83
Feasibility of a Study, 84
Example Research Topics, Problems, and Purposes for Different Types of Research, 87

- 6 Review of Relevant Literature, 97**
 - What Is “The Literature”?, 97
 - What Is a Literature Review?, 97
 - Purposes of Reviewing the Literature, 98
 - Practical Considerations, 100
 - Stages of a Literature Review, 102
 - Processing the Literature, 108
 - Writing the Review of Literature, 110
 - Example of a Literature Review, 112
- 7 Frameworks, 116**
 - Definition of Terms, 116
 - Understanding Concepts, 117
 - Examining Relational Statements, 120
 - Grand Theories, 125
 - Application of Middle-Range Theories, 125
 - Appraising Theories and Research Frameworks, 127
 - Developing a Research Framework for Study, 130
- 8 Objectives, Questions, Hypotheses, and Study Variables, 138**
 - Formulating Research Objectives or Aims, 138
 - Formulating Research Questions, 140
 - Formulating Hypotheses, 142
 - Selecting Objectives, Questions, or Hypotheses for Quantitative or Qualitative Research, 150
 - Identifying and Defining Study Variables, 150
 - Operationalizing Variables or Concepts for a Study, 155
- 9 Ethics in Research, 159**
 - Historical Events Affecting the Development of Ethical Codes and Regulations, 159

- Protection of Human Rights, 163
 - Balancing Benefits and Risks for a Study, 175
 - Obtaining Informed Consent, 176
 - Institutional Review, 183
 - Research Misconduct, 187
 - Animals as Research Subjects, 190
- 10 Understanding Quantitative Research Design, 195**
- Concepts Important to Design, 195
 - Study Validity, 197
 - Elements of a Good Design, 202
 - Questions to Direct Design Development and Implementation in a Study, 207
 - Mixed Methods, 208
- 11 Selecting a Quantitative Research Design, 214**
- Descriptive Study Designs, 215
 - Surveys, 224
 - Correlational Study Designs, 224
 - Defining Therapeutic Nursing Interventions, 228
 - Quasi-experimental Study Designs, 231
 - Experimental Study Designs, 244
 - Studies That Do Not Use Traditional Research Designs, 254
 - Algorithms for Selecting Research Designs, 256
- 12 Qualitative Research Methodology, 264**
- Clinical Context and Research Problems, 264
 - Literature Review for Qualitative Studies, 265
 - Theoretical Frameworks, 265
 - Purposes, 266
 - Research Objectives or Questions, 266
 - Obtaining Research Participants, 267
 - Data Collection Methods, 268
 - Electronically Mediated Data, 276
 - Transcribing Recorded Data, 278
 - Data Management, 279
 - Data Analysis, 279
 - Methods Specific to Qualitative Approaches, 284
- 13 Outcomes Research, 294**
- Theoretical Basis of Outcomes Research, 294
 - Evaluating Structure, 298
 - Federal Government Involvement in Outcomes Research, 300
 - Outcomes Research and Nursing Practice, 302
 - Methodologies for Outcomes Studies, 306
 - Disseminating Outcomes Research Findings, 318
- 14 Intervention-Based Research, 323**
- Intervention-Based Research Conducted by Nurses, 323
 - Nursing Interventions, 324
 - Programs of Nursing Intervention Research, 326
 - Terminology for Intervention-Based Research, 329
 - Types of Research Designs, 335
 - Planning Intervention Research, 338
 - Design and Testing of Interventions, 339
 - Process of Testing the Intervention, 342
 - Data Collection, 345
 - Threats to Study Validity, 345
 - Critical Appraisal of Intervention-Based Research, 345
- 15 Sampling, 351**
- Sampling Theory, 351
 - Probability (Random) Sampling Methods, 357
 - Nonprobability (Nonrandom) Sampling Methods Commonly Applied in Quantitative Research, 362
 - Nonprobability Sampling Methods Commonly Applied in Qualitative Research, 364
 - Sample Size in Quantitative Research, 367
 - Sample Size in Qualitative Research, 371
 - Research Settings, 373
 - Recruiting and Retaining Research Participants, 374
- 16 Measurement Concepts, 382**
- Directness of Measurement, 382
 - Measurement Error, 383
 - Levels of Measurement, 385
 - Reference Testing of Measurement, 388
 - Reliability, 389
 - Validity, 393
 - Accuracy, Precision, and Error of Physiological Measures, 402
 - Sensitivity, Specificity, and Likelihood Ratios, 406

17 Measurement Methods Used in Developing Evidence-Based Practice, 411

- Physiological Measurement, 411
- Observational Measurement, 421
- Interviews, 422
- Questionnaires, 425
- Scales, 429
- Q-Sort Methodology, 434
- Delphi Technique, 435
- Diaries, 437
- Measurement Using Existing Databases, 439
- Selection of an Existing Instrument, 440
- Constructing Scales, 442
- Translating a Scale to Another Language, 445

Unit Three Putting It All Together for Evidence-Based Health Care, 451

18 Critical Appraisal of Nursing Studies, 451

- Evolution of Critical Appraisal of Research in Nursing, 451
- Nurses' Expertise in Critical Appraisal of Research, 454
- Critical Appraisal Process for Quantitative Research, 454
- Critical Appraisal Process for Qualitative Studies, 462

19 Evidence Synthesis and Strategies for Evidence-Based Practice, 468

- Benefits and Barriers Related to Evidence-Based Nursing Practice, 468
- Guidelines for Synthesizing Research Evidence, 471
- Models to Promote Evidence-Based Practice in Nursing, 493
- Implementing Evidence-Based Guidelines in Practice, 496
- Evidence-Based Practice Centers, 502
- Introduction to Translational Research, 503

Unit Four Analyzing Data, Determining Outcomes, and Disseminating Research, 507

20 Collecting and Managing Data, 507

- Data Collection Modes, 507
- Factors Influencing Data Collection, 515
- Data Collection and Coding Plan, 517
- Pilot Study, 523
- Collecting Data, 523
- Serendipity, 530
- Having Access to Support Systems, 530
- Managing Data, 531

21 Introduction to Statistical Analysis, 534

- Concepts of Statistical Theory, 534
- Practical Aspects of Data Analysis, 542
- Choosing Appropriate Statistical Procedures for a Study, 546

22 Using Statistics to Describe Variables, 550

- Using Statistics to Summarize Data, 550
- Using Statistics to Explore Deviations in the Data, 554

23 Using Statistics to Examine Relationships, 560

- Scatter Diagrams, 560
- Bivariate Correlational Analysis, 560
- Bland and Altman Plots, 565
- Factor Analysis and Principal Components Analysis, 566

24 Using Statistics to Predict, 570

- Simple Linear Regression, 570
- Calculation, 571
- Multiple Regression, 573
- Odds Ratio, 575
- Logistic Regression, 576
- Cox Proportional Hazards Regression, 577

25 Using Statistics to Determine Differences, 580

Choosing Parametric versus Nonparametric Statistics to Determine Differences, 580

t-tests, 580

One-Way Analysis of Variance, 584

Chi-Square Test of Independence, 587

26 Interpreting Research Outcomes, 590

Examining Evidence, 590

Determining Findings, 595

Forming Conclusions, 596

Identifying Limitations, 598

Generalizing the Findings, 598

Considering Implications, 599

Recommending Further Research, 599

27 Disseminating Research Findings, 602

Content of a Research Report, 602

Audiences for Communication of Research Findings, 619

Presenting Research Findings, 621

Publishing Research Findings, 627

Unit Five Proposing and Seeking Funding for Research, 635

28 Writing Research Proposals, 635

Writing a Research Proposal, 635

Content of a Research Proposal, 636

Seeking Approval for a Study, 644
Example of a Quantitative Research
Proposal, 647

29 Seeking Funding for Research, 663

Building a Program of Research, 663

Getting Started, 665

Identifying Funding Sources, 667

Submitting a Proposal for a Federal Grant, 670

Grant Management, 671

Planning Your Next Grant, 672

Appendices

Appendix A. Z Values Table, 674

Appendix B. Critical Values for Student's *t*
Distribution, 677

Appendix C. Critical Values of *r* for Pearson Product
Moment Correlation Coefficient, 679

Appendix D. Critical Values of *F* for $\alpha = 0.05$ and
 $\alpha = 0.01$, 680

Appendix E. Critical Values of the χ^2 Distribution, 683

Appendix F. Statistical Power Tables
(Δ = Effect Size), 684

Glossary, 686

Index, 714
