

Detailed Contents

<i>Preface</i>	v
<i>Features of the Book</i>	x
<i>Brief Contents</i>	xii
<i>List of Exhibits and Case Studies</i>	xviii

PART I: CONCEPTS AND STRUCTURE OF MIS

1. Concepts of Information Systems	3	<i>Material Management Systems</i>	34
Concept of Management Information Systems	5	<i>Finance and Accounting Systems</i>	34
Management	5	<i>Manufacturing—Production Planning and Control Systems</i>	36
Information	6	<i>Human Resource Management Systems</i>	36
System	7	Challenges of Managing Information Technology	38
What is Management Information System?	8	Risk of Failure	38
Types of Information Systems	9	Developing Solutions	38
Operations Support Systems	10	Security	39
Transaction Processing Systems	10	Ethics	40
Office Automation Systems	10	Careers	40
Knowledge Management Systems	12	3. Strategic Advantage of IT	45
Management Support Systems	12	Fundamentals of Strategic Advantage	47
Management Information Systems	13	Strategic Role of Information Technology	48
Decision Support Systems	14	Porter's Model of Competitive Strategies	49
Executive Information Systems	15	Competitive Forces	49
Components of Management Information Systems	16	Types of Strategies	50
Hardware	16	Strategic Usage of IT	51
Software	17	Short-Range Planning	54
Data Resources	17	Value Chain and Strategic Information Systems	54
Networks	18	Value Chain Model	55
People	18	Value Chain and Information Systems Deployment	55
Information System Activities	18	MIS—Strategic Business Planning	58
2. MIS in Business	25	MIS—Tool for Organizational Change	59
Role of MIS in Organizations	27	Business Process Reengineering and Process Improvement	62
Trends in MIS	29	Role of Information Technology in BPR	63
Business Processes	30		
Information Systems from Functional Perspective	31		
Purchase and Vendor Management Systems	31		
Sales and Marketing Systems	32		

PART II: INFORMATION TECHNOLOGY INFRASTRUCTURE

4. Hardware Resources	73	<i>Normalization</i>	130
IT Infrastructure	75	<i>Entity-Relationship Diagram</i>	132
Evolution of Computers—A Brief History	75	<i>Physical Database Model</i>	133
Categories of Computers	77	Client-Server and Distributed Database	134
<i>Microcomputers</i>	77	Managing Databases	136
<i>Network servers</i>	77	Latest Trends in Database Management	137
<i>Supercomputers</i>	78	<i>Data Warehousing</i>	138
Computer System Architecture	79	<i>Data Mining</i>	140
<i>Central Processing Unit</i>	80	<i>Web Mining</i>	141
<i>Primary Storage</i>	80	<i>Online Analytical Processing</i>	142
<i>Secondary Storage</i>	82		
<i>RAID Technology</i>	82	7. Networks and Telecommunications	148
Trends in Hardware Platform	85	Trends in Telecommunication Technologies	149
<i>Grid Computing</i>	85	<i>Industry Trends</i>	150
<i>Cloud Computing</i>	86	<i>Technology Trends</i>	150
<i>Digital Mobile Computing</i>	88	<i>Business Application Trends</i>	151
		Business Value of Telecommunication	
5. Software Resources	93	Networks	151
Software	95	Computer Networks	151
Types of software	95	<i>Types of Networks</i>	153
<i>System Software</i>	95	<i>Client-Server Networks</i>	154
<i>Application Software</i>	104	Network and Communication Protocols	156
		<i>Open Systems Interconnection</i>	157
6. Data Resources	115	<i>Transmission Control Protocol/Internet Protocol</i>	157
Database	117	<i>Packet Switching</i>	157
Traditional File Processing Systems	118	<i>Electronic Data Interchange</i>	158
<i>Disadvantages of Traditional Files</i>	118	Telecommunication Media	159
Approach to Database Management	120	Wireless Computer Networks	160
<i>Advantages of Database Approach</i>	120	<i>Microwave</i>	160
Database Management Systems	121	<i>Satellite Communication</i>	160
<i>Functions</i>	122	<i>Wireless Local Area Network</i>	161
<i>Components</i>	122	<i>Bluetooth</i>	161
<i>Types</i>	124	<i>WiMAX</i>	162
Relational Database Management		Networking Devices	162
Systems	125	Internet Revolution	163
<i>Advantages</i>	125	<i>Definition</i>	163
Object-Oriented Database Management		<i>Applications and Tools</i>	164
Systems	127	<i>Future of Internet—Internet Protocol</i>	
Multidimensional Database Management		<i>Version 6 and Internet2</i>	165
Systems	127	Radio Frequency Identification Technology	165
Database Designing	127	<i>Hardware Components</i>	166
<i>Data Planning</i>	128	<i>Functioning</i>	167
<i>Relational Identity</i>	130	<i>Benefits</i>	168

PART III: INFORMATION SYSTEM APPLICATIONS

8. E-business Applications	179	<i>Logistics and Transportation</i>	246
E-business Enterprise	181	<i>Hospitality Management</i>	248
E-business Applications	182	<i>Health Care Management</i>	254
<i>Transaction Processing Systems</i>	182	<i>Aviation Sector</i>	256
<i>E-communication</i>	182	<i>Construction and Real Estate</i>	258
<i>E-collaboration</i>	183	<i>Banking Services</i>	261
Functional Business Systems	184	<i>Insurance Sector</i>	262
<i>Marketing Applications</i>	184		
<i>Sales and Distribution Applications</i>	187		
<i>Material Management Applications</i>	189		
<i>Finance and Accounts</i>	192		
<i>Fixed Assets Management</i>	199		
Human Resource Management	199		
<i>Human Resource Functions</i>	199		
<i>Payroll Functions</i>	200		
Production Planning and Control	202		
9. Enterprise Systems	211		
Enterprise Systems	213		
<i>Enterprise Resource Planning</i>	213		
<i>Trends</i>	218		
Software as a Service	220		
<i>Evolution</i>	220		
<i>Advantages</i>	221		
Supply Chain Management	222		
<i>Information Technology Tools</i>	222		
<i>Role of SCM Applications</i>	224		
<i>E-procurement</i>	224		
<i>Trends</i>	226		
Customer Relationship Management	227		
<i>Customer Relationship</i>	228		
<i>Customer Relationship Management Systems</i>	229		
<i>Sales Force Automation</i>	229		
<i>Marketing</i>	230		
<i>Loyalty Programmes</i>	231		
<i>Customer Service</i>	232		
<i>Advantages of CRM Deployment</i>	232		
<i>Trends</i>	233		
10. Applications for Service Sector	241		
Service vs Product	243		
<i>Concept of Service</i>	244		
<i>Service Management Systems</i>	245		
MIS for Service Sectors	246		
11. E-commerce	271		
E-commerce	273		
World Wide Web	274		
<i>Uniform Resource Locator</i>	275		
<i>Hypertext Transfer Protocol</i>	275		
<i>Hypertext Mark-up Language</i>	276		
<i>Common Gateway Interface</i>	276		
New Internet Business Models	276		
<i>Information Portals</i>	276		
<i>Social Networking</i>	277		
<i>Digital Content</i>	278		
<i>Entertainment</i>	278		
<i>Trade Services</i>	278		
<i>Classified Services</i>	279		
Categories of E-commerce	279		
Essentials of E-commerce	280		
<i>Right Revenue Model</i>	280		
<i>High Penetration of Internet</i>	281		
<i>E-commerce Portals</i>	281		
<i>Content and Catalogue Management</i>	281		
<i>User Profiles and Security</i>	282		
<i>Workflow and Order Fulfilment</i>	282		
<i>Collaboration and Logistics</i>	283		
E-payment Systems	284		
<i>Securing Electronic Payments</i>	284		
Trends in E-commerce	285		
Challenges of E-commerce	287		
E-commerce Scenario in India	290		
<i>Business Potential of Various Segments</i>	291		
12. Decision Support Systems	298		
Decision-Making	300		
<i>Business Value of Improved</i>			
<i>Decision-making</i>	301		
<i>Types of Decisions</i>	301		

Methods for Deciding Decision Alternatives	305	Updating Knowledge Base	332
Pay-off Analysis	306	Data Deluge	333
Decision Tree Analysis	307	Artificial Intelligence	333
Optimization Techniques	307	Commercial Applications	334
Decision Support System Concepts	308	Expert Systems	334
Components	308	Components	335
Decision Support Trends	309	Applications	336
Business Analytics and Business Intelligence	310	Neural Networks	337
Online Analytical Processing	310	Fuzzy Logic Systems	337
Geographic Information Systems and Data		Genetic Algorithms	338
Visualization Systems	312	Intelligent Agents	339
Using Decision Support Systems	313		
Modelling with Spreadsheets	313	14. Mobile Computing and M-commerce	345
Data Mining for Decision Support	317	Emerging Mobile Digital Platform	347
Executive Support Systems	318	Mobile Computing	347
Features	318	Mobile Operating Systems	348
13. Knowledge Management and Intelligent Systems	325	Cellular Systems	350
Knowledge Management	327	Cellular Network Standards	350
Knowledge Management Systems	328	Cellular Telephony	351
Business Value	328	Mobile Data Networks	352
Initiatives	328	Wireless Web	352
Categories	330	Mobile Computing Services	353
Challenges	331	Services Offered	353
Getting Employees on Board	332	M-commerce	356
		M-commerce Applications	357
		Challenges of M-commerce	361

PART IV: DEVELOPMENT OF MIS

15. Information Systems Planning and Development	369	16. Implementing Information Systems	395
Information Systems Planning	371	Planning of Implementation	397
Components	371	Challenges of Implementation	400
Planning Methodologies	372	Evaluation of Hardware and Software	402
System Development Life Cycle	373	Stages of Implementation	404
Feasibility Study	375	Implementation Process	405
System Analysis	376	Approaches to Implementation Roll-out	408
System Design	378	Causes of Success and Failure of Implementation	410
Construction	380	User Involvement and Influence	411
Testing and Evaluation	385	Management Support and Commitment	412
Implementation	387	Level of Complexity and Risk	413
Maintenance	387	Management of Implementation Process	413

PART V: MANAGEMENT AND CHALLENGES OF MIS

17. Information Security Management	423	Impact of Information Technology on Quality of Life	458
Information Security Threats	425	Workplace Interaction and Culture	458
<i>Hacking</i>	426	Personal Life—Family, Work, and Leisure	459
<i>Malicious Software</i>	427	Employment Loss	459
<i>Internal Threats</i>	428	Health Risks	460
Controlling Security Threats and Vulnerabilities	429	Information Technology Act 2008—Key Highlights	460
<i>Firewall</i>	429		
<i>Encryption</i>	430		
<i>Digital Signatures</i>	431		
<i>Physical Access Control</i>	432		
<i>Virus Defences</i>	432		
<i>Fault-tolerant Computer Systems</i>	433		
<i>Other Security Measures</i>	435		
Security and Control Policy Framework	435		
<i>Information System Controls</i>	435		
<i>Risk Assessment</i>	436		
<i>Security Policy</i>	436		
<i>Disaster Recovery Plan</i>	438		
<i>Information Technology Security Audit</i>	439		
18. Ethical and Societal Challenges of IT	446	19. Information Systems Leadership	465
Ethical and Social Issues Connected with Systems	448	Evolution of Information System Function	467
<i>Legal Issues</i>	450	Management of Information Systems Function	469
<i>Privacy Issues</i>	450	<i>Managing Information Systems Operations</i>	469
<i>Ethical Issues</i>	452	<i>Managing Application Development Projects</i>	469
Accountability and Liability Issues	453	<i>Managing User Services</i>	470
Internet Challenges to Privacy	455	<i>Human Resource Management of Information Technology</i>	470
Intellectual Property Rights, Copyrights, and Patents	457	Profile of Chief Information Officers	470
<i>Copyrights</i>	457	Role of Chief Information Officers	471
<i>Patents</i>	458	<i>General Leadership Roles</i>	472
		<i>Information Systems Leadership Roles</i>	473
		Challenges Faced by Chief Information Officers	476
		20. Managing Global Systems	483
		Global Business—Challenges and Opportunities	485
		<i>Global Information Technology Strategies</i>	488
		<i>Global Information Technology Systems</i>	489
		Global Technology Issues	490
		<i>Computing Platforms</i>	491
		<i>Connectivity Issues</i>	491
		<i>Software Localization</i>	492
		<i>Database Sharing</i>	495
