Acknowledgements	VII
CHAPTER 1	
Present applications and future directions in pattern-driven approaches to corpus linguistics	1
<i>Jukka Tyrkkö &amp; Joanna Kopaczyk</i>	
Part I. Methodological explorations	
CHAPTER 2	
From lexical bundles to surprisal and language models: Measuring the idiom principle in native and learner language	15
<i>Gerold Schneider &amp; Gintarė Grigonytė</i>	
CHAPTER 3	
Fine-tuning lexical bundles: A methodological reflection in the context of describing drug-drug interactions	57
<i>Łukasz Grabowski</i>	
CHAPTER 4	
Lexical obsolescence and loss in English: 1700–2000	81
<i>Ondřej Tichý</i>	
Part II. Patterns in utilitarian texts	
CHAPTER 5	
Constance and variability: Using PoS-grams to find phraseologies in the language of newspapers	107
<i>Antonio Pinna &amp; David Brett</i>	
CHAPTER 6	
Between corpus-based and corpus-driven approaches to textual recurrence: Exploring semantic sequences in judicial discourse	131
<i>Stanisław Goźdz-Roszkowski</i>	

CHAPTER 7

Lexical bundles in Early Modern and Present-day English

Acts of Parliament

159

*Anu Lehto*

**Part III. Patterns in online texts**

CHAPTER 8

Lexical bundles in Wikipedia articles and related texts: Exploring disciplinary variation

189

*Turo Hiltunen*

CHAPTER 9

*Join us for this*: Lexical bundles and repetition in email marketing texts

213

*Joe McVeigh*

CHAPTER 10

*I don't want to and don't get me wrong*: Lexical bundles as a window to subjectivity and intersubjectivity in American blogs

251

*Federica Barbieri*

CHAPTER 11

Blogging around the world: Universal and localised patterns in Online Englishes

277

*Joanna Kopaczyk & Jukka Tyrkkö*
