Part 1 Introduction and Outline	1
1 Key concepts when framing business and management research	3
Introduction	3
Overall structure of this book	4
The need for good research	4
The scope of management research	6
Research examples help to understand important research concepts	8
Summary	12
Activities and resources	12
Further reading	13
2 Examples to illustrate a research roadmap	15
Introduction	15
Introducing and illustrating the character of good research	16
Three examples of research from MIS cases	16
Three examples of research from strategic marketing cases	18
Implications	20
Activities and resources	20
Further reading	21
3 A roadmap for research design and implementation	23
A mental model for good research	23
The meanings of key words in the mental model	26
Meanings for elements of investigative theory	26
Meanings for elements of investigative practice	30
Other key words used to describe aspects of a research programme	31
Comparing cases according to the research roadmap	33
Summary of important principles	38
Activities and resources	39
Further reading	41

Part II	Research Paradigms	43
4	Philosophies of science – the bedrock of good research	45
	Introduction	45
	Helicopter view of three research approaches	47
	Paradigms – guides to positivist, interpretivist and criticalist approaches	47
	The example we use in the rest of this chapter	50
	Example and template for a positivist approach	50
	Example and template for an interpretivist approach	55
	Example and template for a criticalist approach	60
	Conclusion	68
	Activities and resources	68
	Further reading	69
5	Illustrating three paradigms in action: a guide to the next three chapters	71
	Research design and implementation choices	71
	Activities and resources	80
	Further reading	81
Part III	Illustrative Cases	83
6	Positivist examples of investigative theory and practice	85
	Introduction	85
	Key elements in positivist studies	85
	Investigative theory	85
	Investigative practice	89
	Example 1: Information management practices	93
	Investigative theory	93
	Investigative practice	96
	Example 4: Personal electronic service goods	97
	Investigative theory	97
	Investigative practice	100
	Activities and resources	101
	Further reading	103
7	Interpretivist examples of investigative theory and practice	105
	Introduction	105
	Key elements in interpretivist studies	105
	Investigative theory	106
	Investigative practice	110
	Example 2: Managing knowledge workers	112
	Investigative theory	112
	Investigative practice	120
	Example 5: Deciding on competitive product portfolios	122
	Investigative theory	122

Investigative practice	130
Activities and resources	132
Further reading	133
8 Criticalist examples of investigative theory and practice	135
Context	135
Introduction	135
Key elements in criticalist studies	138
Investigative theory	139
Investigative practice	142
Example 3: Investments in business information systems	144
Investigative theory	144
Investigative practice	146
Example 6: The politics of portfolio choices	149
Context	149
Investigative theory	149
Investigative practice	150
Activities and resources	153
Further reading	154
Part IV Summary	157
9 Summary and pointers for further understanding of major paradigms	159
Part 1: Summary	159
Investigative theory	160
Investigative practice	167
Part 2: Pointers for further understanding major paradigms	169
Challenges from the positivist legacy	169
Developments in response to challenges about positivist epistemology	171
Integrating approaches to scientific inquiry	173
Conclusion	174
Activities and resources	175
Key terms in this book	177
