Contributing Authors xv

Preface xxix

PART I

General Principles of Infection 1

HOW MICROORGANISMS CAUSE DISEASE 1

1. Molecular Epidemiology in Infectious Diseases 1
Susan M. Poutanen and Lucy S. Tompkins

HOST FACTORS 8

2. The Complement System 8
Jerry A. Winkelstein
3. Phagocytes: Normal and Abnormal Neutrophil Host Defenses 14
Mark S. Klempner and Harry L. Malech
4. Cell-Mediated Immunity 40
Richard B. Markham and Alan L. Scott
5. Clinical Approach to Fever 54
Burke A. Cunha
6. The Role and Use of Cytokines in Infectious Diseases 64
Robert W. Finberg

EPIDEMIOLOGY 72

7. Epidemiology of Community-Acquired Infections 72
Mitchell L. Cohen
8. Epidemiology and Prevention of Nosocomial Infections 78
Deborah S. Yokoe
9. The Pathogens of Hospital Infections 90
Stephanie R. Black and Robert A. Weinstein
10. Emerging Infections 107
Larry J. Strausbaugh and Daniel B. Jernigan
11. Bioterrorism 116
John G. Bartlett

PART II

Diagnosis of Infectious Diseases 126

12. Clinical Microbiology 126
Henry D. Isenberg and Stephen G. Jenkins

13. Immunodiagnosis 145
Noel R. Rose

14. Molecular Techniques for the Detection, Identification, and Quantitation of Infectious Agents 152
Fred C. Tenover

15. Diagnostic Significance of Nonspecific Laboratory Abnormalities in Infectious Diseases 158
Burke A. Cunha

16. Skin Testing 166
George S. Deepe, Jr.

PART III

Treatment of Infectious Diseases 172

PRINCIPLES OF TREATMENT 172

17. Pharmacologic Principles 172
Michael Barza

ANTIMICROBIAL DRUGS 180

18. Penicillins 180
William A. Craig
19. Cephalosporins 192
Robert C. Moellering, Jr., Deborah E. Sentochnik, and John G. Bartlett
20. Other β -Lactam Antibiotics 204
Kenneth S. Thomson and Philip D. Lister
21. Tetracyclines 208
David N. Williams
22. Macrolides and Clindamycin 213
Graeme N. Forrest and David W. Oldach
23. Vancomycin and Teicoplanin 233
Raul E. Davaro and Richard H. Glew
24. Oxazolidinones, Quinupristin-Dalfopristin, and Daptomycin 241
Raul E. Davaro, Richard H. Glew, and Jennifer S. Daly
25. Trimethoprim-Sulfamethoxazole 246
Richard Gleckman and Claudia Altschuller-Felberg
26. Quinolones 250
Vincent T. Andriole
27. Chloramphenicol 263
Graeme N. Forrest and David W. Oldach

28. Metronidazole and Other Nitroimidazoles 269
Glenn E. Mathisen
29. Rifampin and Related Drugs 274
William A. Craig
30. Miscellaneous Drugs 280
Burt R. Meyers, Fernando Borrego, and Alejandra C. Gurtman
31. Mechanisms of Bacterial Resistance to Antimicrobial Drugs 289
George M. Eliopoulos and Howard S. Gold
32. Antiviral Therapy 299
Richard J. Whitley
33. Antifungal Drugs 317
John W. Baddley and William E. Dismukes
34. Antimycobacterial Drugs 328
Venkatarama Rao Koppaka, C. Robert Horsburgh, Jr., and Kenneth G. Castro
35. Antiparasitic Drugs 344
Martin S. Wolfe
36. Immune Globulin Therapy (Passive Immunization) for Augmentation of the Host Response 358
Jeffrey K. Griffiths and David R. Snyderman

PART IV

Prevention of Infectious Diseases 371

-
37. Immunization of Children and Adults 371
Jerome O. Klein
 38. Management of Urinary Catheters 381
Calvin M. Kunin
 39. Prophylaxis for Surgical Infections 385
Ronald Lee Nichols
 40. Antimicrobial Prophylaxis for Nonsurgical Infections 394
Jan V. Hirschmann
 41. Advice to Travelers 401
Mary E. Wilson

PART V

Clinical Infections 412

HEAD AND NECK 412

42. Dental Infections 412
Walter J. Loesche
43. Infections of Head and Neck Spaces and Salivary Glands 420
Ann Sullivan Baker and Anthony W. Chow
44. Infections of the Sinuses and Parameningeal Structures 428
Anthony W. Chow
45. Ear and Mastoid Infections 443
Charles D. Bluestone

46. Infections of the Pharynx, Larynx, Epiglottitis, Trachea, and Thyroid 457
Irmgard Behlau
47. The Common Cold 465
W. Paul Glezen

PLEUROPULMONARY 470

48. Approach to the Patient with Pneumonia 470
John G. Bartlett
49. Bacterial Pneumonia 480
John G. Bartlett
50. Bronchitis 490
John G. Bartlett
51. Viral Pneumonia 495
Stephen G. Baum and David C. Perlman
52. Mycoplasma Pneumonia 504
Maurice A. Mufson
53. *Pneumocystis carinii* Pneumonia 508
Walter T. Hughes
54. Fungal Pneumonias 512
Susan Hadley and Donald B. Louria
55. Legionnaires' Disease (Clinical) 523
Robert R. Muder
56. *Chlamydia* Pneumonia 530
Margaret R. Hammerschlag
57. Aspiration Pneumonia 537
John G. Bartlett
58. Lung Abscess and Necrotizing Pneumonia 543
John G. Bartlett
59. Empyema 547
John G. Bartlett

CARDIOVASCULAR SYSTEM 552

60. Bloodstream Invasion 552
John G. Bartlett, John E. McGowan, Jr., and Jonas A. Shulman
61. Sepsis 561
David W. Hines, Jeffrey M. Lisowski, Roger C. Bone, and John G. Bartlett
62. Infective Endocarditis 569
Donald Kaye
63. Vascular Graft Infections 581
Thomas F. O'Donnell, Jr., Harold J. Welch, and Richard A. Nitzberg
64. Pericarditis and Myocarditis 589
Catherine Diamond and Jeremiah Tilles

GASTROINTESTINAL TRACT 597

65. Approach to the Patient with Diarrhea 597
Alain R. Bouckennooghe and Herbert L. DuPont
66. Shigellosis 603
Gerald T. Keusch
67. Food Safety 607
David W. K. Acheson

68. *Salmonella* Infections 618
Arthur Y. Kim, Marcia B. Goldberg, and Robert H. Rubin
69. Infections Due to *Escherichia coli* 633
Michael S. Donnenberg
70. *Escherichia coli* O157:H7 and Other Shiga Toxin-Producing *E. coli* 642
Megan E. Reller and Patricia M. Griffin
71. *Campylobacter* Infections 648
Ban Mishu Allos
72. *Yersinia enterocolitica* Infections 655
Douglas A. Finch and Edward J. Bottone
73. Cholera and Related Illnesses Caused by *Vibrio*, *Aeromonas*, and *Plesiomonas* Species 661
David A. Sack
74. *Clostridium difficile*-Associated Diarrhea and Colitis 670
John G. Bartlett
75. Viral Gastroenteritis 677
Neil R. Blacklow
76. Traveler's Diarrhea 681
Sherwood L. Gorbach
77. Food Poisoning 689
Davidson H. Hamer and David R. Snyderman
78. Specific and Nonspecific Treatment of Diarrhea 702
James D. Campbell, Karen L. Kotloff, and Myron M. Levine
79. Whipple's Disease 710
Steven F. Solga and Theodore M. Bayless
80. Approach to the Patient with Intraabdominal Infections 714
Dietmar H. Wittmann and Robert E. Condon
81. Peritonitis 723
Ronald Lee Nichols
82. Intraabdominal Abscesses 731
Rachel G. Khadaroo, Avery B. Nathens, and Ori D. Rotstein
83. Appendicitis 744
Gordon L. Telford, John A. Weigelt, and Robert E. Condon
84. Diverticulitis 750
Dietmar H. Wittmann

LIVER AND BILIARY TRACT 756

85. Type A Viral Hepatitis 756
Stanley M. Lemon
86. Hepatitis B and Hepatitis D 765
Raymond S. Koff
87. Hepatitis C 779
Raymond S. Koff
88. Hepatitis E 785
Raymond S. Koff
89. Pyogenic Liver Abscess 787
John G. Bartlett
90. Cholecystitis and Cholangitis 793
Juan Carlos Jimenez, Yale Podnos, Russell A. Williams, and Samuel Eric Wilson

PANCREAS AND SPLEEN 799

91. Infection after Acute Pancreatitis 799
Thomas Foitzik, Ernst Klar, and Andrew L. Warshaw
92. Splenic Abscess 813
Bassam Helou and Thomas R. Gadacz

OTHER SURGICAL INFECTIONS 817

93. Approach to the Patient with Postoperative Fever 817
E. Patchen Dellinger
94. Surgical Site Infection 823
Ronald Lee Nichols
95. Gas Gangrene and Other Clostridial Skin and Soft Tissue Infections 830
Sherwood L. Gorbach
96. Skin and Soft Tissue Infections 836
Sherwood L. Gorbach
97. Infections in Trauma 845
Ronald C. Jones
98. Burns 851
Basil A. Pruitt, Jr., Albert T. McManus, and Seung H. Kim

URINARY TRACT 861

99. Approach to the Patient with Urinary Tract Infection 861
Walter E. Stamm and Ann E. Stapleton
100. Urethritis, Prostatitis, Epididymitis, and Orchitis 872
Clayton S. Lau and Grannum R. Sant
101. Renal Abscess 878
Clayton S. Lau and Grannum R. Sant

SEXUALLY TRANSMITTED DISEASES 882

102. Approach to the Patient with Sexually Transmitted Disease 882
Matthew R. Golden and H. Hunter Handsfield
103. Gonorrhea 887
Khalil G. Ghanem, Edward W. Hook, and Jonathan M. Zenilman
104. Chlamydial Infections of the Genital Tract 894
Julius Schachter
105. Syphilis 898
Daniel M. Musher and Robert E. Baughn
106. Genital Herpes 904
Anthony Simmons, Michael N. Oxman, and Lawrence R. Stanberry
107. Chancroid, Lymphogranuloma Venereum, and Granuloma Inguinale 916
Allan Ronald and Michelle J. Alfa
108. Human Papillomaviruses and Anogenital Disease 923
Lawrence J. Eron

GYNECOLOGY AND OBSTETRICS 927

109. Approach to the Patient with Infection of the Pelvis 927
William J. Ledger

110. Pelvic Inflammatory Disease and Tuboovarian Abscess 931
Richard L. Sweet

111. Vaginitis, Cervicitis, and Endometritis 944
David A. Eschenbach

112. Bacterial Infections Associated with Pregnancy, Delivery, and Abortion 951
William J. Ledger

AIDS AND RELATED INFECTIONS 958

113. Approach to the Patient with Human Immunodeficiency Virus Infection: Clinical Features 958
Henry Masur

114. International Epidemiology of the Human Immunodeficiency Virus 970
Thomas C. Quinn and Richard E. Chaisson

115. Pulmonary Infections in Patients with Human Immunodeficiency Virus Infection 987
John G. Bartlett

116. Gastrointestinal and Nutritional Complications of Human Immunodeficiency Virus Infection 996
John G. Bartlett

117. Cutaneous Infections in Human Immunodeficiency Virus Disease 1008
Carrie Ann Cusack, Marsha L. Chaffins, and Clay J. Cockerell

118. Human Immunodeficiency Virus Serology and Viral Burden 1025
John G. Bartlett

119. Antiretroviral Treatment 1028
John G. Bartlett

120. Prevention of Human Immunodeficiency Virus Transmission 1038
Jonathan Zenilman

121. Pediatric Human Immunodeficiency Virus Infection 1056
Arry Dieudonne and James Oleske

122. Human T-Cell Lymphotropic Virus Type I and Neurologic Diseases 1088
Richard T. Johnson

123. Human Immunodeficiency Virus Infection in Women 1090
Deborah Cotton

IMMUNOCOMPROMISED HOSTS 1099

124. Approach to the Immunocompromised Patient 1099
Michael H. Grieco

125. Infections Associated with Malignancy 1106
Gerald P. Bodey

126. Infections in Organ Transplant Recipients 1111
Nina E. Tolkoff-Rubin and Robert H. Rubin

127. Infections Associated with Bone Marrow Transplantation 1123
Joan Mannick and Richard T. Ellison, III

128. Infections Associated with Corticosteroids and Immunosuppressive Therapy 1129
Neil L. Barg and Robert Fekety

129. Treatment and Prevention of Infections in Immunocompromised Hosts 1141
Stephen H. Zinner

SKIN AND SOFT TISSUE 1150

130. Approach to the Patient with Skin or Soft Tissue Infection 1150
David S. Feingold and Jan V. Hirschmann

131. Normal Cutaneous Flora and Infections They Cause 1152
Jan V. Hirschmann and David S. Feingold

132. Staphylococcal and Streptococcal Skin or Soft Tissue Infections 1155
Jan V. Hirschmann and David S. Feingold

133. Gram-Negative Bacillary Skin or Soft Tissue Infections 1158
David S. Feingold and Jan V. Hirschmann

134. Cutaneous Abscesses and Ulcers 1159
Jan V. Hirschmann and David S. Feingold

135. Foot Infections in the Diabetic Patient and Infections Associated with Pressure Sores 1160
Francisco L. Sapico

136. Fungal Infections of the Skin 1162
Jill R. Rosenthal

VIRAL EXANTHEMS AND LOCALIZED VIRAL SKIN INFECTIONS 1180

137. Measles 1180
Michael A. Gerber and Gilbert M. Schiff

138. Rubella (German Measles) 1184
Hans M. L. Spiegel and John L. Sever

139. Varicella and Herpes Zoster 1195
John A. Zaia and Charles Grose

140. Smallpox 1207
John Noble and Joseph J. Esposito

141. Mumps 1210
Adriano Arguedas, Hillel Janai, and Melvin I. Marks

142. Human Papillomaviruses and Warts 1215
Mathijs H. Brentjens, Kimberly A. Yeung-Yue, Patricia C. Lee, and Stephen K. Tyring

143. Erythema Infectiosum, Roseola, and Enteroviral Exanthems 1220
Walter W. Tunnessen, Jr.

BONES AND JOINTS 1225

144. Osteomyelitis 1225
Francis A. Waldvogel and Daniel P. Lew

145. Infectious Arthritis 1230
Nancy Y. Liu and David F. Giansiracusa

EYE AND PARANASAL SINUSES 1240

146. Infections of the Eye 1240
Jules Baum and Michael Barza

NERVOUS SYSTEM 1259

147. Approach to the Patient with Infection of the Central Nervous System 1259
David N. Irani and Diane E. Griffin
148. Acute Bacterial Meningitis 1264
Morton Swartz
149. Acute Viral Meningitis and Encephalitis 1286
Stephen G. Baum and Brian Koll
150. Chronic Meningitis 1293
John C. Pottage, Jr., and Alan A. Harris
151. Central Nervous System Shunt Infections 1303
Majid Sadigh, Pierce Gardner, and Thomas J. Leipzig
152. Brain Abscess 1308
Staci A. Fischer and Alan A. Harris
153. Slow Viral Infections of the Central Nervous System 1320
David M. Asher
154. Infectious Diseases of the Spinal Cord and Peripheral Nervous System 1332
Newton E. Hyslop, Jr., and Rodrigo Hasbun
155. Reye's Syndrome 1374
John R. La Montagne

TUBERCULOSIS AND LEPROSY 1379

156. Tuberculosis 1379
Kevin P. Fennelly and Jerrold J. Ellner
157. Environmental Mycobacterial Infections 1389
Michael D. Iseman and Mary Ann DeGroot
158. Leprosy 1410
Diana N. J. Lockwood and Keith P. W. J. McAdam

ZOONOSES 1423

159. Approach to the Patient with Zoonotic Infection 1423
David R. Stone
160. Rabies 1428
James E. Childs, Marta A. Guerra, and Charles E. Rupprecht
161. Bites 1440
Fredrick M. Abrahamian and Ellie J. C. Goldstein
162. Tularemia 1446
David T. Dennis
163. Plague 1452
Darwin L. Palmer
164. Anthrax 1459
Christopher C. Penn and Stephen A. Klotz
165. Glanders 1463
John G. Bartlett
166. Leptospirosis 1464
Patrick W. Kelley
167. Relapsing Fever 1470
Thomas Butler
168. Rocky Mountain Spotted Fever 1473
J. Stephen Dumler

169. The Human Ehrlichioses and Related Infections, Q Fever, Epidemic Typhus, Murine Typhus, Rickettsialpox, Scrub Typhus, and Other Rickettsioses 1481
Jennifer H. McQuiston and James G. Olson
170. Agents of Human Ehrlichiosis 1492
John W. Sumner and Christopher D. Paddock
171. Cat-Scratch Disease 1499
Jennifer S. Daly
172. Trichinellosis 1504
Els Mathieu and Peter M. Schantz
173. Toxoplasmosis 1508
Rima McLeod and Jack S. Remington
174. Larva Migrans Syndromes Caused by *Toxocara* Species and Other Helminths 1529
Peter M. Schantz

LYMPH NODE SYNDROMES 1535

175. Epstein-Barr Virus Infection and Infectious Mononucleosis 1535
Elliott Kieff
176. Chronic Fatigue Syndrome 1540
Stephen E. Straus
177. Cytomegalovirus Infections 1543
Sarah H. Cheeseman and Laura L. Gibson
178. Kawasaki Syndrome 1551
H. Cody Meissner and Donald Y. M. Leung

OTHER INFECTIONS 1557

179. Infections in a Prosthetic Device 1557
Adolf W. Karchmer
180. Fever of Unknown Origin 1568
Burke A. Cunha
181. Toxic Shock Syndrome 1578
Patrick M. Schlievert and Aristides P. Assimacopoulos

PART VI**Microbial Agents 1585****GRAM-POSITIVE COCCI 1585**

182. Staphylococci 1585
John N. Sheagren and Dennis R. Schaberg
183. *Streptococcus pyogenes* (Group A Streptococci) 1591
Gene H. Stollerman
184. *Streptococcus pneumoniae* 1605
Robert Austrian
185. Enterococci 1610
Barbara E. Murray and John G. Bartlett
186. Group B *Streptococcus* 1616
Michael R. Wessels and Dennis L. Kasper

GRAM-POSITIVE BACILLI 1622

187. *Corynebacteria* 1622
Neal Halsey and John G. Bartlett
188. *Bacillus anthracis* and Other Aerobic Gram-Positive Spore Forming Bacilli 1628
Christopher C. Penn and Stephen A. Klotz
189. *Bacillus* Species Infections 1631
Christopher C. Penn and Stephen A. Klotz
190. *Listeria monocytogenes* 1633
Claire Broome, Robert Pinner, Anne Schuchat, and John G. Bartlett
191. *Erysipelothrix rhusiopathiae* 1638
Judith L. Nerad

GRAM-NEGATIVE COCCI 1641

192. *Neisseria gonorrhoeae* 1641
Khalil Ghanem and Jonathan M. Zenilman
193. *Neisseria meningitidis* 1650
John W. Boslego, Edmund C. Tramont, and John G. Bartlett
194. Miscellaneous Gram-Negative Cocci: Other *Neisseria*, *Moraxella*, and *Kingella* Species 1656
Timothy F. Murphy

GRAM-NEGATIVE BACILLI 1662

195. Enterobacteriaceae 1662
Henry D. Isenberg and Richard F. D'Amato
196. *Salmonella*: Pathogenesis and Vaccines 1673
Arthur Y. Kim, Robert H. Rubin, and Marcia B. Goldberg
197. *Shigella* 1680
Gerald T. Keusch
198. *Campylobacters* 1686
Ban Mishu Allos
199. *Vibrios* 1693
G. Balakrish Nair and David A. Sack
200. *Francisella tularensis*, *Pasteurella*, and *Yersinia pestis* 1697
Shirish S. Huprikar and Edward J. Bottone
201. *Pseudomonas aeruginosa* and Related Bacteria 1703
Christopher A. Ohi and Matthew Pollack
202. *Brucella* 1717
Eduardo Gotuzzo and Carlos Carrillo
203. *Haemophilus* 1725
Timothy F. Murphy
204. *Streptobacillus moniliformis* 1736
Gary Doern
205. *Legionella* 1737
Sue M. Mietzner and Janet E. Stout
206. *Bordetella* 1744
William Jerry Durbin
207. Miscellaneous Gram-Negative Bacilli: *Acinetobacter*, *Cardiobacterium*, *Actinobacillus*, *Chromobacterium*, *Capnocytophaga*, and Others 1751
Judith L. Nerad and Stephanie Black

ANAEROBIC BACTERIA 1768

208. Anaerobic Bacteria 1768
John G. Bartlett
209. Anaerobic Cocci 1781
John G. Bartlett
210. Anaerobic Gram-Negative Rods: *Bacteroides*, *Prevotella*, *Porphyromonas*, *Fusobacterium*, *Bilophila*, *Sutterella*, *Tannerella* 1784
Sydney M. Finegold
211. *Clostridium tetani* 1796
John G. Bartlett
212. *Clostridium botulinum* 1800
Charles L. Hatheway and John G. Bartlett
213. *Clostridium perfringens* and Other Clostridia 1805
Sherwood L. Gorbach

SPIROCHETES 1814

214. Lyme Disease 1814
Raymond J. Dattwyler and Gary P. Wormser
215. *Borrelia* Species and *Spirillum minus* 1831
Thomas Butler

216. *Leptospira* 1832
Patrick W. Kelley

217. *Helicobacter* 1837
Julie Parsonnet

MISCELLANEOUS MICROORGANISMS 1843

218. *Bartonella* Species 1843
Jennifer S. Daly
219. *Calymmatobacterium granulomatis* 1850
Gary Doern
220. *Nocardia* 1852
Dimitrios P. Kontoyiannis
221. Agents of Actinomycosis 1858
John G. Bartlett
222. *Chlamydia* 1865
Julius Schachter
223. Mycoplasmas and Ureaplasmas 1874
William M. McCormack

RICKETTSIA 1878

224. *Rickettsia rickettsii* (Rocky Mountain Spotted Fever) 1878
J. Stephen Dumler
225. *Rickettsia typhi* and *Rickettsia prowazekii* 1881
Joseph E. McDade and James G. Olson
226. *Rickettsia tsutsugamushi* and *Rickettsia akari* 1884
James G. Olson and Joseph E. McDade

227. *Coxiella burnetii* (Q Fever) 1886
Paul D. Holtom and John M. Leedom

PART VII

Viruses 1891

228. Virus Classification 1891
Neil R. Blacklow

DNA VIRUSES 1894

229. Adenoviruses 1894
Tsoline Kojaghlanian and Marshall S. Horwitz
230. Herpes Simplex Viruses 1905
Lawrence R. Stanberry, Michael N. Oxman, and Anthony Simmons
231. Roseoloviruses: Human Herpesviruses 6 and 7 1918
Kathleen M. Neuzil and Donald H. Rubin
232. Kaposi's Sarcoma-Associated Herpesvirus/Human Herpesvirus 8 1923
Joyce Fingerhuth
233. Epstein-Barr Virus 1935
Elliott Kieff
234. Varicella-Zoster Virus 1947
Charles Grose and John A. Zaia
235. Cytomegalovirus 1950
Laura L. Gibson and Sarah H. Cheeseman
236. Human Parvovirus 1959
Neal S. Young
237. Human Papillomaviruses 1966
Keerti V. Shah
238. Human Polyomavirus 1971
Keerti V. Shah
239. Hepatitis B Virus and Hepatitis D Virus 1974
Raymond S. Koff
240. Poxviruses 1980
Bernard Moss

RNA VIRUSES 1987

241. Influenza Viruses 1987
Peter F. Wright and Kathleen M. Neuzil
242. Human Parainfluenza Viruses 1997
Kelly J. Henrickson
243. Mumps Virus 2016
Hillel Janai, Adriano Arguedas, and Melvin I. Marks
244. Rubeola (Measles) and Subacute Sclerosing Panencephalitis Virus 2018
Gilbert M. Schiff
245. Hantaviruses 2023
Frederick Koster and Brian Hjelle

246. Respiratory Syncytial Virus 2031
Robert C. Welliver and Pearay L. Ogra
247. Coronaviruses 2038
C. George Ray
248. Poliovirus 2041
Cara C. Burns, Mark A. Pallansch, and Olen M. Kew
249. Coxsackievirus, Echovirus, and Other Enteroviruses 2047
Mark A. Pallansch and M. Steven Oberste
250. Rhinoviruses 2052
Roland A. Levandowski
251. Hepatitis A Virus 2063
Stanley M. Lemon and Annette Martin
252. Hepatitis C Virus 2072
Raymond S. Koff
253. Hepatitis E Virus 2074
Raymond S. Koff
254. Rotaviruses and Other Reoviridae 2076
John E. Herrmann
255. Human Retroviruses 2082
Vladimir Novitsky, Roger Shapiro, and Max Essex
256. Rubella Virus 2105
Hans M. L. Spiegel and John L. Sever
257. Yellow Fever Virus 2109
Theodore F. Tsai
258. Dengue Viruses 2113
Scott B. Halstead
259. Encephalitis Viruses Belonging to the Families Flaviviridae, Togaviridae, and Bunyaviridae 2119
Charles H. Hoke, Jr.
260. West Nile Virus 2128
Sharone Green and Alan L. Rothman
261. Hemorrhagic Fever Viruses Belonging to the Families Arenaviridae, Filoviridae, and Bunyaviridae 2133
Kelly T. McKee, Jr., and Ali S. Khan
262. Rabies Virus 2149
Charles E. Rupprecht, Lillian Orciari, and James E. Childs
263. Caliciviruses and Astroviruses 2159
Neil R. Blacklow

PART VIII

Unconventional Agents Causing Slow Infections 2166

264. Transmissible Spongiform Encephalopathies 2166
David M. Asher

PART IX
***Mycobacteria* 2184**

265. *Mycobacterium tuberculosis* and Other
Mycobacteria 2184
Kevin P. Fennelly and Jerrold J. Ellner
266. *Mycobacterium leprae* 2192
Diana N. J. Lockwood and Keith P. W. J. McAdam

PART X
***Fungi* 2197**

267. *Candida albicans* and Related Species 2197
Janine R. Maenza and William G. Merz
268. *Cryptococcus neoformans* 2206
John R. Graybill
269. *Aspergillus* Species 2212
Richard D. Meyer
270. *Histoplasma* 2218
L. Joseph Wheat
271. *Coccidioides immitis* 2227
Stanley C. Deresinski, Laurence F. Mirels, and
Carol A. Kemper
272. *Sporothrix schenckii* 2246
Ronald A. Greenfield
273. *Blastomyces* and *Paracoccidioides* 2249
George S. Deepe, Jr.
BLASTOMYCES 2249
George S. Deepe, Jr., and Bruce S. Klein
PARACOCCIDIOIDES 2253
George S. Deepe, Jr.
274. Dematiaceous Fungi 2260
Jill R. Rosenthal
275. Phycomycetes 2265
Burt R. Meyers, Fernando Borrego, and Alejandra C. Gurtman
276. Miscellaneous Fungi 2270
Alan M. Sugar

PART XI
***Parasites* 2276**

PROTOZOA 2276

277. *Entamoeba histolytica* and Other Intestinal Amebae 2276
Sharon L. Reed
278. *Giardia Intestinalis* 2281
Michael J. G. Farthing
279. Malaria and Babesiosis 2290
Kathryn N. Suh and Jay S. Keystone
280. *Leishmania* 2308
John L. Hoi and Warren D. Johnson, Jr.
281. *Trypanosoma* 2327
James H. Maguire
282. *Toxoplasma gondii* 2334
Craig Roberts and Rima McLeod
283. *Pneumocystis carinii* 2339
Walter T. Hughes
284. *Cryptosporidium*, *Isospora*, *Cyclospora*, *Microsporidia*, and
Dientamoeba 2341
Ynes R. Ortega and Charles R. Sterling

OTHER PARASITES 2354

285. Intestinal Nematodes 2354
Michael V. Callahan and Davidson H. Hamer
286. Tissue Nematodes 2366
Davidson H. Hamer and David O. Freedman
287. *Schistosoma* and Other Trematodes 2377
Charles H. King and Adel A. F. Mahmoud
288. Cestodes (Tapeworms) 2382
Kaethe Willms
289. Arthropods 2400
Andrew Spielman, Mitchell Wachtel, and Richard J. Pollack
