**Abstract book**

digitalisiert durch:  
IDS Basel Bern
**Monday July 18, 2011**

**Congress Symposium : Understanding Children from Rorschach and Projective Techniques**  
9:00-10:30 (Large Hall)  
Vera Campo, Naoko Misawa, Kayoko Murase ........................................... 26

**Lecture : About Therapeutic Assessment**  
10:45-12:00 (Large Hall)  
Stephen E Finn .................................................. 28

**Case Study : Multimethod Personality Assessment**  
13:30-17:00 (Large Hall)  
Anne Andronikof, Chikako Fukatsu, Philip Erdberg, Justine McCarthy Woods ........................................... 29

**Symposium : International Collaborations on Recent TAT scoring Systems : Europe and USA**  
9:00-10:30 (Small Hall)  
Sharon Rae Jenkins, Ivo Cermak, Tana Fikarova ........................................... 44

**Presentation : Psychodynamics**  
9:00-10:40 (403)  
The Rorschach and the 'Third Position': Further Explorations of the Assessment of Adolescents using the Rorschach  
Justine M McCarthy Woods .................................................. 45

Alcohol dependence in relation to the defense system and object relations. A study with TAT on dual diagnosis patients  
Gabriella Gandino, Dorianna Dipaola, Monica Prastaro, Mattia Meli .................................................. 46

W Face Response of borderline personalities on the Rorschach Test  
Hiroshi Kuroda .................................................. 46

Psychoanalytic Analysis of the Problematic: The Threat To The Interior of the Body which emerges with Regression in Rorschach Test Administered to Post Menopausal Women  
Fatma Kandemir .................................................. 47

**Presentation : The Future of the Projective Techniques**  
9:00-10:20 (405)  
Projective test usage in Japan  
Toshiki Ogawa, Kazunori Iwasa, Jungmi Yi, Yoshinori Konno, Chisa Okubo .................................................. 49

Psychodynamics manifested in the Rorschach Test and the Drawing Test  
Naoko Onoda, Makiko Kitamura, Shizuka Ikejima, Chiyo Chiba, Rukiko Nakamura, Chikako Fukatsu ................. 50

A Dialogue between the Comprehensive System and the Psychodynamic Approach  
Kentaro Hitomi, Satoshi Yoshimura .................................................. 52

**Presentation : Basic Research (1)**  
10:40-12:00 (Small Hall)  
An Investigation and clustering of the keywords for color response: using text mining  
Masaru Yasuda .................................................. 55

NIRS-based hemodynamic changes in frontal lobe during the Rorschach inkblot method  
Chigusa UCHIUMI, Masahiro ISHIBASHI, Naoki AIZAWA, Kiyoshi MAKITA, Yugo NAKAMURA, Masahiro IWAKIRI .................................................. 57

Predictors of Spatial Working Memory in the Rorschach - Pair Response's Potential for Discrimination of Asperger Disorder  
Hironori Abe .................................................. 59

**Presentation : Special Applications**  
10:40-12:00 (405)  
Determinants proportions related with stories made with the responses  
Fernando M. Silberstein .................................................. 61

MULTIPLE USES OF THE PSYCODIAGNOSIS IN THE FORENSIC PRACTICE  
Zunilda Gavilan Martiarena .................................................. 63

PERSONALITY CHARACTERISTICS OF LITIGANT PARENTS IN DESTRUCTIVE DIVORCES IN SANTA FE PROVINCE COURT (ARGENTINE)  
Zunilda Gavilan Martiarena, Silvia Basavilbaso, Mara Patricia Ruani, Emanuel Palacios, Monica Acosta .................................................. 66

**Presentation : Basic Research (2)**  
13:30-15:10 (Small Hall)  
Why does Affective Ratio (Afr) comes down in children protocols?  
Danilo R. Silva .................................................. 69
The Rorschach Coping Deficit Index as an indicator of neuropsychological dysfunction
Tuula A Ilonen ................................................................. 69

What do we know about the Vista responses?
Vera Campo, Lucy Jachevsky, Nancy Vilar ................................................................. 70

On the relationship between the texture response, vividness of mental imagery and adult attachment
Kazunori Iwasa, Toshiki Ogawa ................................................................. 70

Presentation : Developmental Disorder 13:30-15:10 (403)

Rorschach Test of Adult Developmental Disorder
Fusae Homma, Namiko Nihashi, Ryuichirou Narishige, Kengo Shimoda ................................. 73

Psychological Assessment of an Adult Case of Pervasive Developmental Disorder -Focused on
Rorschach and Wechsler Method-
Toshikazu Shinotake, Michiko Takahashi, Makiko Kitamura, Shizuka Ikejima, Chiyo Chiba, Takaki Maeda

Rorschach Test of two Cases Suspected to have Autistic Spectrum Syndrome (ASD)
Nélida Tanaka .............................................................................. 78

A comparative study of Rorschach responses between bipolar disorder and autism spectrum disorder
Tomoko Muramatsu, Toshio Munesue ................................................................. 79

Presentation : Development of Rorschach Assessment Techniques 13:30-15:10 (405)

Aggression as attack or conflict as a uniting force? Analysis of two couples using J. Willi's joint
Rorschach testing
Gabriella Gandino, Doriana Dipaola, Monica Prastaro, Elisa Bosco ............................................ 81

A supplementary technique for the detection and the identification of the chocs and denials in the
Rorschach test
Alessandro Crisi .............................................................................. 81

An Ego Functions Model: Software for the 21st Century
Thomas W Shaffer ............................................................................. 82

Presentation : Basic Research (3) 15:40-17:00 (Small Hall)

Color and Form Quality. A study with a group of 11/12 years-old children
Danilo R. Silva .............................................................................. 83

Are individuals in Rorschach nonpatient samples really healthy? Data for a sample of 120 adult
nonpatients from Italy
Anna Maria Rosso, Andrea Camoirano, Gabriele Schiaffino, Stefania Cristofanelli,
Alessandro Zennaro .............................................................................. 83

To "optimize" or not to "optimize": That is the question
Vera Campo .............................................................................. 85

Presentation : Assessment Techniques (2) 15:40-17:00 (405)

Usefulness and limits of psychological tests in family image assessment -An experiment by test battery
Akiko Ishii .............................................................................. 86

Rorschach Test And Landscape Montage Technique in two cases of Depression
Yumi Fukuhara, Mayumi Nakashima, Asuka Nakano, Moe Watanabe, Hideaki Amayasu ................................. 88

Technique for "Multiple Feedback" in Rorschach Feedback Session
Masamichi Noda .............................................................................. 91

Poster Presentation 11:00-12:00 (409)

No.1 Rorschach indexes of dissociation in an analog study of university students
Yoshikazu Fukui, Tsuyoshi Okazaki, Yukiko Yamashita ................................................................. 94

No.2 Rorschach test for a adolescence female in the Prodromal Phase of Schizophrenia with
Dissociative symptoms
Ryota Masuda, Masaharu Maeda ................................................................. 94

No.3 Examination of alexithymia for patients with chronic pain
Kazumi Yamamoto ................................................................. 95
No.4 Rorschach findings in atopic dermatitis -Comparison between adult atopic dermatitis patients and healthy university students in Japanese population-
Yukiko Yamashita, Tsuyoshi Okazaki, Yoshikazu Fukui, Ueda Eiichiro ........................................ 97

No.5 Rorschach variables in samples with Intellectual Disability and/or psychopathology
Santo F. Di Nuovo, Sabrina Castellano, Serafino Buono ................................................................. 98

No.6 Attempt of validity examination of Rorschach variable that uses Lexical decision tasks
Akinari Hayashi ................................................................................................................................. 99

No.7 The experience of abandonment in the adopted children through the Corman’s Patte Noire Test -PN- (The Blackleg Test)
Elisabeth Ballus ............................................................................................................................... 101

Poster Presentation  16:00-17:00 (409)

No.8 Study of Relationship between Suicidal Ideation Score in Self-Rating Depression Scale(SDS) and Sentences about Death or Suicide in Sentence Completion Test(SCT)
Nagako Ariki, Yasuhiro Mizuno, Kei Asakawa, Masato Kitajima, Ritsuko Tsugawa Yoshinori Cho ⋅⋅⋅ 103

No.9 Study of Relationship between Sentences about Death or Suicide in Sentence Completion Test(SCT) and Suicide Constellation(S-CON) in Rorschach Comprehensive System
Yasuhiro Mizuno, Nagako Ariki, Kei Asakawa, Masato Kitajima, Ritsuko Tsugawa, Yoshinori Cho ⋅⋅⋅ 105

No.10 ROLE OF PEDIATRICIANS IN PREVENTION SUICIDE OF CHILDREN UNDER FOURTEEN AFTER THE WAR IN BOSNIA
Adnan Bajraktarevic, Andrea Pahor Kurilic, Milan Miokovic, Sanja Putica, Latvo Sporisevic, Amina Selimovic, Aida Djulepa Djurdjevic, Almir Masala, Zaim Jatic, Sabina Popovic, Dzelaludin Kantardzic ....................................................................................................................... 107

No.11 The Rorschach Tests reflects the effect of a structured environment on a violent adolescent with Pervasive Developmental Disorder Not Otherwise Specified
Maki Yoshino, Toshihiko Kinoshita .................................................................................................... 108

No.12 Children with specific language impairment and introjection process failure
Veronika TALY, Michele EMMANUELLI ......................................................................................... 110

No.13 A multi method assessment of a filicide case
Maria-Fiorella Gazale, Federica Gradante, Antonino Calogero ..................................................... 110

No.14 Consideration concerning stress tolerance of university student who is group sports athlete
Ryota Abe, Konoyu Nakamura ........................................................................................................ 111

No.15 Effects of Learning Activity on Elderly Japanese in Osaka
Naoya Kuwata, Masuhiro Okuda, Yaeo Hata, Masatoshi Takeda, Hiroaki Kazui, Takeshi Morihara, Noriyuki Hayashi, Ayumi Kono, Kunio Murata, Ayako Shinke, Kaori Sugimura, Naoki Fujii, Mayuki Muraoka, Ryousuke Naka, Naoko Kitano, Hisayo Nakagawa .............................................................. 113

Tuesday July 19, 2011

Congress Symposium : Rorschach Psychodynamic Approach 10:00-12:00 (Large Hall)
Reiko Baba, Zunilda Gavilan, Tevfika Ikiz, Odile Husain ................................................................. 115

Congress Symposium : Rorschach and Psychological Assessment in Asia and Oceania
15:45-17:00 (Large Hall)
Seung-ah Jung, Khurelbaatar Khansuren, Kim Dowse .................................................................... 116

Lecture : The Wartegg Drawing Completion Test : A New Methodology of Scoring and Interpretation
10:45-12:00 (Small Hall)
Alessandro Crisi ............................................................................................................................... 117

Lecture : Mental health issues following the Great Eastern Japan Earthquake : needs for disaster worker support
15:45-17:00 (Small Hall)
Jun Shigemura ................................................................................................................................ 118

Symposium [Japan Rorschach Society for the Comprehensive System] : How to study the Comprehensive System for Continuous Learning
9:00-10:30 [Small Hall]
Motoshi Tsuzuki, Fusae Homma, Itsuko Kato, Tomoko Muramatsu, Yasuko Okano, Megumi Tezuka ................................................................. 119
Symposium (Japanese Society for the Rorschach and Projective Methods): An Effect of Psychopathological Assessment in the Rorschach 13:30-15:30 (Small Hall)
Sanae Aoki, Hiroshi Kuroda, Mitsunori Myogan, Raul de Diego Vallejo

Symposium: Some Examples of International Progress in Rorschach 9:00-9:45 (Large Hall)
Gregory J Meyer, Danilo Silva

Symposium: Bringing Tests to Life in Collaborative/Therapeutic Assessment 13:30-15:30 (Large Hall)
Stephen E Finn, Janet Allyn, Alessandro Crisi, Diane Engelman, Constance Fischer, Tadayuki Hashimoto, Noriko Nakamura, Caroline Purves, Heikki Toivakkia

Presentation: Psychological Assessment in Clinical Settings 9:00-10:40 (403)
Psychological Stress and Conflict observed in Living Donors: A Rorschach Study
Motoko Matsumori, Michiko Akimoto, Kanae Hayashi

Rorschach Responses of 6 Patients with Psychogenic Aphony
Atsuko Umezuo, Jiro Suzuki

The Rorschach test of Morbid Simple Obese Patients Differentiating Binge Eating Disorder and Non Binge Eating Disorder
Yukari Azuma, Motoko Matsumori

Presentation: Psychopathology (1) 9:00-10:20 (405)
Rorschach Findings in Depersonalization Patients
Yoshiko Nagami

An analysis of depression revealed in the Rorschach test: A comparison between adjustment disorder and major depressive disorder
Rui Kawashima, Akemi Osaki, Hiromi Kimura, Takeshi Inoue, Tsukasa Koyama

Presentation: Social Problems and Psychological Assessment 13:30-15:10 (403)
Parent of a child with disabilities’ lifeline: Study of resilience
Melina Couillard, Colette Jourdan-Ionescu, Francine Julien-Gauthier

Study of the Rorschach and TAT protocols in the context of applications for recognition of a mental disability: About profiles Rorschach and TAT apparently contradictory
Samuel Gonzales-Puett

Rorschach Comprehensive System Assessment of the DEPI Constellation in Mongolia: A Research with 21 Depressive Adults Patients. A review of the Isolate Index
Helene Salaun de Kertanguy, Khandsuren Khandsuren Khurelbaatar

Adolescents’ Drawings of Psychological Distress
Melina Couillard, Colette Jourdan-Ionescu

Presentation: Drawing Tests 13:30-14:50 (405)
Meaning of Use of “Family Drawing in Animals” at the first Consultation for Children in Primary School
Yuko Iguchi

Attempt of new interpretation hypothesis about drawing features of S-HTP in contemporary adolescents
Chiaki Kohketsu

An application of Wartegg-Zeichen-Test to psychotherapy
Eriko Terasawa

Presentation: Psychopathology (2) 15:20-17:00 (405)
GENDER IDENTITY DISORDER IN THE LIGHT OF PSYCHOLOGICAL ASSESSMENT TECHNIQUES
Carla Araceli Gherardi

A trans gender person multimethod assessment
Maria Fiorella Gazale, Rosanna D’Arrezzo, Ilaria Merlino

Different substances, different personality traits? A study based on the Rorschach test
Gabriella Gandino, Dorianna Dipaola, Alberto Paudice, Monica Prastaro
Study of the Rorschach responses of adolescents with Eating Disorder.- Using The Thinking Process and Communicating Styles Category -
Yasue Takahashi, Chinatsu Nagasaki, Minako Nishi, Izumi Kurosaki, Noboru Takahashi .......................... 152

Poster Presentation 11:00-12:00 (409)

No.16 Comparison between Rorschach Test Results and Psychoanalytic Psychotherapy (Part 1) - Commonalities between Test-Talking Attitude and Attitude in Psychotherapy in Clients with BPO -
Joji Sten Katagai, Sachiko Mori, Tomoko Matsumoto ................................................................. 155

No.17 Comparison between Rorschach Test Results and Psychoanalytic Psychotherapy (Part 2) - Reflections of the Clients' Response-to-Rorschach-Test-Stimuli Patterns on the Client-Therapist Relationship -
Sachiko Mori, Tomoko Matsumoto, Joji Katagai ........................................................................... 157

No.18 Comparison between Rorschach Test Results and Psychoanalytic Psychotherapy (Part 3) - Does Rorschach Test Predict Psychotherapeutic Progress?
Tomoko Matsumoto, Joji Katagai, Sachiko Mori ............................................................................... 160

No.19 Role of Vague Response in Rorschach Test
Tomoko Fukunaga, Yuko Kawaguchi, Naoko Takeuchi, Mami Watanabe, Masayuki Ogawara 162

No.20 Reconsider on the Color Projection on the Rorschach Test
Sanae Aoki .............................................................................................................................. 164

No.21 A case illustration of Cognitive-Behavioral context for the Rorschach interpretation
Hiroyuki Konishi .......................................................................................................................... 165

No.22 Withdraw

No.23 Going beyond psychiatric comorbidity through a multidimensional assessment approach: the importance of Rorschach Test
Flavia M Levi, Giuseppe Bolotta ....................................................................................................... 166

No.24 A case of dissociative disorder
Maria-Fiorella Gazale, Daniele Rovaris .......................................................................................... 167

No.25 Therapeutic Application of Projective technique (Rorschach and Drawings)
Yoshiharu Matsuse, Rumiko Matsuse ............................................................................................... 168

No.26 The report of a clinical case performed Rorschach Based Psychotherapy.
Naoko Ogura, Noriko Nakamura ....................................................................................................... 168

Poster Presentation 16:00-17:00 (409)

No.27 THE COGNITIVE TRAIT OF ASD'S :DEVELOPMENTAL CHANGE OF COGNITION BY AGING
Mitsunori Myogan, Hiroyuki Uchida, Masatsugu Tsujii .................................................................. 171

No.28 The problem of communication that have people with Autistic Spectrum disorder: form relationship of Inquiry of Rorschach test
Mitsunori Myogan, Hiroyuki Uchida, Masatsugu Tsujii .................................................................. 172

No.29 CDI and Lambda of High-functional Pervasive Developmental Disorder
Hiroyuki Uchida, Mitsunori Myogan, Masatsugu Tsujii .................................................................. 173

No.30 RORSCHACH RESPONSES OF CHILDREN WITH HIGH-FUNCTIONING PERSER
DEVELOPMENTAL DISORDER IN JAPAN
Izumi Ooba ...................................................................................................................................... 174

No.31 The Rorschach responses of children with pervasive developmental disorder
Ayumu Endo, Haruki Matsukawa ........................................................................................................ 176

No.32 Developmental patterns of autistic spectrum disorders reflected in manner of approach of the Rorschach test
Eiko Honaga, Tomoko Fukunaga, Setsuko Kuno, Chiyo Tanaka, Masayuki Ogawara,
Yuko Kawaguchi, Hiroshi Sato, Koji Toyonaga ............................................................................ 177

No.33 A case report of 11 year-old girl's Rorschach-test result who has a 46-XY Disorders of Sex Development
Eri Maeda, Hiroko Murakami, Kaori Matoba, Takayuki Yokoi, Masako Fujiwara, Ichiro Miyata,
Kazue Saito, Hiroyuki Ida .................................................................................................................. 177
Comparison between partial amnesia and generalized amnesia using the Rorschach protocols in adolescent girls
Hiroki Tomishima, Kazuko Miyoshi

Wednesday July 20, 2011

Congress Symposium: Psychological Assessment of Developmental Disorders 9:00-10:30 (Large Hall)
Zvulun Bar On, Makiko Kitamura

Congress Symposium: Opinions of Younger Rorschachers on the Future of the Rorschach and Projective Methods 13:30-14:45 (Large Hall)
Guilherme Brunoni, Silvia Silva, Thomas Rosén, Seiji Mabuchi

Lecture (JRSC): Understanding Brain Functions from the Rorschach test 10:45-12:00 (Large Hall)
Koji Jimura

Special Lecture: Nonjudgmental Rorschach-Based Psychotherapy 14:50-15:35 (Large Hall)
Noriko Nakamura

Lecture: Suicide Prevention 11:00-12:00 (Small Hall)
Thomas Shaffer

Presentation: Suicide Prevention 9:00-10:20 (Small Hall)
Suicide and Rorschach. The migration’s effects on Mental Health

Suicide: Assessment and Treatment
Thomas W Shaffer

Suicide: The Therapist as a Survivor
Thomas W Shaffer

Presentation: Child and Adolescents 10:40-12:00 (403)
Awake children to a sense of oneself 1 ~20 years following up with the Comprehensive System
Megumi Tezuka, Kazuya Fujiishi, Fumio Yonekawa

Awake children to a sense of oneself 2 ~20 years following up with the Comprehensive System
Kazuya Fujiishi, Megumi Tezuka, Fumio Yonekawa

Characteristic of Juvenile sex delinquent
Hiromasa Hattori, Youiti Nakagawa, Yuri Arai

Poster Presentation 11:00-12:00 (409)
No.34 The Fit Likelihood of Polya-Eggenberger Distribution to the Number of Count Variables of the Rorschach Test
Hironori Abe

No.35 The comparison of the Erlebnistypus introverted and introversion by MPI -About friends relations and Quality of life
Ryuichi Yamashita

No.37 Susceptibility to Malingered Depression on the Rorschach “Comprehensive System”
Hisako Yoshikawa, Kiichiro Yoshikawa, Mitsue Tomura, Nakamura Noriko

No.38 Current Study on LAD (Logical Analysis Device) - How Effect High Lambda Style and EB Pervasive to solve the Problem ?-
Mitsue Tomura, Nobuaki Hata, Noriko Nakamura

No.39 Characteristics of college students in Japan, China and Korea: Kinetic Family Drawings (K-F-D) research and application
Yuanhong Ji, Aekyoung KIM, Xinhua TAO, Ping ZHANG

No.40 The Development of College Students’ Stressors Questionnaire(CSSQ)
DaoYang Wang, Benxian Yao, Yi Pan, HuiMing Sun

No.41 Alternative meaning of inanimate movement responses produced by a Japanese professional baseball player: supported along with the Hand Test
Hiroko Sasaki
Emotional experiences reflected in the Star-Wave test A Comparative Study with Exner’s comprehensive system
Nanako Katsuki ........................................................................................................ 210

No.43 BAUM TEST and MAD TREE re-TEST a dynamic, culture free evaluation of personality
Albertina Del Lungo, Massimiliano Luciani ......................................................... 212

No.44 Relationship between How to Draw Trees in the Twice-Application Method of the Tree-Test and Personality Traits
Ikuko Suzuki, Miyako Morita ............................................................................. 215

No.45 The thinking process of TAT story
Munekazu Fujita, Ayako Kimura, Ayaka Fujita .................................................. 215

Closing Ceremony 15:45-16:15 (Large Hall)
Noriko Nakamura, Bruce L. Smith

Index of Authors .................................................................................................. 216
