SECTION 1: Methodological Approaches to Plant Use Diversity

| | |
|--|----|
| 1. Factors and Issues in Plant Choice – <i>A. Chevalier, E. Marinova, L. Peña-Chocarro</i> | 3 |
| 2. Exploring Diversity in the Past and in the Present – <i>edited by L. Zapata</i> | 15 |
| 2.1. Exploring Diversity in the Past: An Introduction – <i>L. Zapata</i> | 15 |
| 2.2. Exploring Diversity Through Archaeobotany – <i>L. S. Cummings</i> | 20 |
| 2.3. Exploring Diversity Through Written Sources – <i>J. L. Mingote Calderón, M. Russel, F. Sigaut</i> | 27 |
| 2.4. Representing Nature: Images and Social Dynamics in Ancient Societies – <i>S. González Reyero</i> | 33 |
| 2.5. Exploring Diversity in the Present: Ethnobotany Studies – <i>G. S. Cruz-García</i> | 42 |
| 2.6. Conclusions – <i>L. Zapata</i> | 51 |

SECTION 2: Food Plants

| | |
|--|-----|
| 3. Crop Diversity Through Time – <i>edited by E. Marinova</i> | 61 |
| 3.1. Introduction – <i>E. Marinova</i> | 61 |
| 3.2. Crop Diversity and Choice in Prehistoric Southeastern Europe: Cultural and Environmental Factors Shaping the Archaeobotanical Record of Northern Greece and Bulgaria – <i>E. Marinova, S.-M. Valamoti</i> | 64 |
| 3.3. Crop Diversity between Central Europe and the Mediterranean: Aspects of Northern Italian Agriculture – <i>M. Rottoli</i> | 75 |
| 3.4. Crop Diversity in Southwestern Central Europe from the Neolithic onwards – <i>S. Jacomet</i> | 82 |
| 3.5. Crop Diversity in the Neolithic of the Iberian Peninsula – <i>L. Peña-Chocarro, L. Zapata</i> | 96 |
| 3.6. Choice of a Crop and its Underlying Reasons: Examples from Western Central Europe 500 BCE–CE 900 – <i>C. Bakels</i> | 101 |
| 3.7. Crops and Agricultural Developments in Western Europe – <i>F. Sigaut</i> | 107 |
| 3.8. Crop Diversity and Choice in the Prehistoric American Southwest – <i>L. S. Cummings</i> | 113 |
| 3.9. Processes of Prehistoric Crop Diversification in the Lake Titicaca Basin of the South American Andes – <i>M. C. Bruno</i> | 118 |
| 3.10. Conclusions – <i>E. Marinova</i> | 125 |

| | |
|--|-----|
| 4. Adding Diversity. Between Occasional Food and Speculative Productions: Diversity of Fruit Uses, Diversity of Practices Regarding Fruit Tree Cultivation – edited by L. Bouby, M.-P. Ruas | 141 |
| 4.1. Introduction – L. Bouby, M.-P. Ruas | 141 |
| 4.2. Acorn Use in Native California – R. Cuthrell | 150 |
| 4.3. A Wild Solution to Resilience and Provision: The Case of <i>Prosopis</i> spp. on the Peruvian North Coast – D. J. Goldstein | 156 |
| 4.4. Before the Empire: Prehistoric Fruit Gathering and Cultivation in Northern Italy – M. Rottoli | 163 |
| 4.5. <i>Citrus</i> (Rutaceae) was Present in the Western Mediterranean in Antiquity – Bui Thi Mai | 170 |
| 4.6. From Secondary to Speculative Production? The Protohistory History of Viticulture in Southern France – L. Bouby, P. Marinval, J.-F. Terral | 175 |
| 4.7. Fruit as Staple Food: The Role of Fig (<i>Ficus carica</i> L.) During the Pre-Hispanic Period of the Canary Islands, Spain (from the 3rd–2nd centuries BCE to the 15th century CE) – J. Morales, J. Gil | 182 |
| 4.8. Beyond the Divide Between Wild and Domesticated: Spatiality, Domesticity and Practices Pertaining to Fig (<i>Ficus carica</i> L.) and Olive (<i>Olea europaea</i> L.) Agroecosystems Among Jbala Communities in Northern Morocco – Y. Aumeeruddy-Thomas, Y. Hmimsa, M. Ater, B. Khadari | 191 |
| 4.9. Conclusions – L. Bouby | 198 |
| 5. Food Plants from the Wild – edited by G. S. Cruz-García, F. Ertuğ | 211 |
| 5.1. Introduction: Wild Food Plants in the Present and Past – G. S. Cruz-García, F. Ertuğ | 211 |
| 5.2. Gathering in a New Environment: The Use of Wild Food Plants During the First Colonisation of the Canary Islands, Spain (2nd–3rd century BCE to 15th Century CE) – J. Morales, J. Gil | 216 |
| 5.3. Wild Food Plants Traditionally Used in Spain: Regional Analysis – J. Tardío, M. Pardo-de-Santayana | 228 |
| 5.4. Use of Wild Food Plant Resources in the Dogon Country, Mali – C. Sellegier | 236 |
| 5.5. Silverweed: a Food Plant on the Road from Wild to Cultivated? – C. Griffin-Kremer | 242 |
| 5.6. <i>Cleome</i> : a Wild Plant as Complement to Cultigens in Southwestern North America – L. S. Cummings | 250 |
| 5.7. Conclusions – G. S. Cruz-García, F. Ertuğ | 254 |

SECTION 3: Food and Beyond

| | |
|---|-----|
| 6. A Versatile World: Examples of Diversity in Plant Use – edited by C. Griffin-Kremer | 266 |
| 6.1. Introduction – C. Griffin-Kremer | 266 |
| 6.2. 'Humble Plants': Uses of Furze and Nettles in the British Isles (and Beyond) – C. Griffin-Kremer | 270 |
| 6.3. Versatile Hulled Wheats: Farmers' Traditional Uses of Three Endangered Crop Species in the Western Mediterranean – L. Peña-Chocarro, L. Zapata | 276 |
| 6.4. Use of Crop-Processing By-Products for Tempering in Earthen Construction Techniques – E. Bonnaire | 282 |
| 6.5. Uses of the Wild Grass <i>Ampelodesmos mauritanica</i> in Northwestern Tunisia Today – P. C. Anderson | 287 |
| 6.6. Uses of the Mastic Tree (<i>Pistacia lentiscus</i> L.) in the West Mediterranean Region: An Example from Sardinia, Italy – Bui Thi Mai, M. Girard, F. de Lanfranchi | 293 |

| | |
|--|-----|
| 6.7. Ancient and Modern Boat Caulking: Use of Oleoresins in Tropical Asia – Bui Thi Mai, M. Girard | 299 |
| 6.8. Conclusions – C. Griffin-Kremer | 305 |
| 7. Plants Used in Ritual Offerings and in Festive Contexts – edited by A.-M. Hansson, A. G. Heiss..... | 311 |
| 7.1. Introduction – A.-M. Hansson, A. G. Heiss | 311 |
| 7.2. Hidden Stone – A Unique Bread Offering from an Early Medieval Cremation Grave at Lovö, Sweden – A. M. Hansson | 335 |
| 7.3. Ceremonial Foodstuff from Prehistoric Burnt-Offering Places in the Alpine Region – A. G. Heiss | 343 |
| 7.4. Festive Use of Plants: A Diachronic Glimpse of May Day in the British Isles, France and Slightly Beyond – C. Griffin-Kremer | 354 |
| 7.4a. Common Plant Names, Now and Then – The Botanical Viewpoint – C. Griffin-Kremer, A. G. Heiss | 361 |
| 7.5. Ceremonial Plants Among the Hopi in North America – L. S. Cummings | 364 |
| 7.6. Ceremonial Plants in the Andean Region – M. Sayre | 368 |
| 7.7. Conclusions – A. G. Heiss, A.-M. Hansson..... | 374 |
| 8. Social Status, Identity and Contexts – edited by A. Chevalier | 385 |
| 8.1. Introduction – A. Chevalier..... | 385 |
| 8.2. Plants for the Ancestors: Perpetuation of Social Status and Justification of Power in a Late Formative (400–100 BCE) Andean Group – A. Chevalier, J. Dulanto | 391 |
| 8.3. Plants in the Eastern Iberian Iron Age: From Daily Work to the Ideological Construction of the Community – S. González Reyero..... | 403 |
| 8.4. Social Status and Food Diet in Bibracte, Morvan (Burgundy, France) – F. Durand, J. Wiethold | 412 |
| 8.5. Symbol of Poverty? Children's Evaluation of Wild Food Plants in Wayanad, India – G. S. Cruz-García..... | 421 |
| 8.6. More than Simply Fallback Food? Social Context of Plant Use in the Northern German Neolithic – W. Kirleis, S. Klooß..... | 428 |
| 8.7. Legal Constraints Influencing Crop Choice in Castile and Environs from Middle Ages to the 19th century: Some Examples – J. L. Mingote Calderón | 439 |
| 8.8. Late Classic Maya Provisioning and Distinction in Northwestern Belize – D. J. Goldstein, J. B. Hageman..... | 444 |
| 8.9. Conclusions – A. Chevalier | 452 |
| 9. Conclusions – Plants for Thoughts – A. Chevalier, L. Peña-Chocarro, E. Marinova | 467 |
