

CONTENTS

PART I INTRODUCTION

1. KANT'S ENTERPRISE

- | | |
|---------------------------------------------|----|
| 1. The Critical Philosophy | 3 |
| 2. Specific Philosophical Problems | 7 |
| 3. The General Enterprise | 11 |
| 4. Technical Terms | 14 |
| 5. The Main Divisions of the First Critique | 18 |

PART II TRANSCENDENTAL AESTHETIC

2. SPACE AND TIME

- | | |
|--------------------------------|----|
| 1. Main Doctrines | 21 |
| 2. Transcendental Idealism | 25 |
| 3. The Unity of Space and Time | 29 |
| 4. Mathematics | 35 |
| 5. Kant, Leibniz, and Newton | 36 |
| 6. Final Comments | 40 |

PART III TRANSCENDENTAL ANALYTIC

3. THE ANALYTIC OF CONCEPTS

- | | |
|---------------------------------------------|----|
| 1. The Metaphysical Deduction | 45 |
| 2. Transcendental Deduction: Main Argument | 47 |
| 3. A Reconstructed Argument | 54 |
| 4. Two Objections | 57 |
| 5. The Theory of Synthesis | 61 |
| 6. The Transcendental Unity of Apperception | 64 |
| 7. Retrospect | 68 |

4. THE ANALYTIC OF PRINCIPLES

- | | |
|-----------------|----|
| 1. Introduction | 70 |
|-----------------|----|

2. The First Analogy	72
3. The Second Analogy	76
4. The Refutation of Idealism	81
5. Reconstruction	82
6. Kant and Hume	91
7. Kant and Newton	92
8. Appendix: The Schematism	94

PART IV TRANSCENDENTAL DIALECTIC

5. THE PARALOGISMS

1. The Dialectic	101
2. The Attack on Descartes	104
3. Transcendental Idealism	111
4. Kant's Concept of a Person	113

6. THE ANTINOMIES

1. Introduction	116
2. The Mathematical Antinomies: Arguments	117
3. The Mathematical Antinomies: Solution	122
4. Kant's Philosophy of Science	125
5. The Dynamical Antinomies: Arguments	130
6. The Dynamical Antinomies: Solution	133
7. General Review of the Antinomies	138

7. GOD

1. Introduction	140
2. The Ontological Argument	141
3. The Cosmological Argument	146
4. The Physico-Theological Argument	150
5. Final Thoughts on Kant on God	153
6. Constitutive and Regulative	154
7. Brief Review of the Dialectic	158

PART V THREE PROBLEMS

8. MATHEMATICS

1. The Problem	163
2. Kant's Main Doctrines	164
3. Objections	168
4. A Special Place for Logic and Arithmetic?	176
5. Euclidean and 'Phenomenal' Geometry	177

9. TRANSCENDENTAL IDEALISM

1. Positive Idealism	180
2. Negative Idealism	184
3. Formal Idealism	187
4. Noumenalism and Ethics	190
5. Objections to Transcendental Idealism	194

10. TRANSCENDENTAL ARGUMENTS

1. The Problem	199
2. Analytic Necessity	200
3. Synthetic Necessity	202
4. The Verification Principle	206
5. Psychological Necessity	208
6. Final Observations	213
