Summary	49
Recommended reading and further resources	50
<b>3 Syndromes, diagnoses and classification of disorders</b>	<b>51</b>
Intended learning outcomes	51
Introduction	52
Prevalence and incidence	52
Assessment and diagnostic instruments	53
Psychometric tests	54
Neuropsychological tests	54
General intelligence quotient (IQ) tests	55
Problem-solving tests: non-verbal tests	56
Standardized tests and raw scores	57
<i>The Diagnostic and Statistical Manual of Mental Disorders</i>	59
Diagnostic neuroscience and imaging techniques	62
Reframing disability: an alternative view?	64
Summary	66
Recommended reading and further resources	67
<b>PART 2</b>	
<b>Identifying and understanding disorders</b>	<b>69</b>
Intended learning outcomes	69
Introduction	70
<b>4 Higher incidence developmental disorders</b>	<b>73</b>
Speech and language developmental disorders	74
Sensory-motor, behaviour and attention disorders	84
Summary	93

<b>5</b>	<b>Lower incidence developmental disorders</b>	<b>95</b>
	Intended learning outcomes	95
	Introduction	96
	Neurological disorders	97
	Summary	121
 <b>PART 3</b>		
	<b>Application to practice: working in partnerships, meeting all needs</b>	<b>123</b>
	Overview	123
<b>6</b>	<b>Psychosocial implications of developmental disorders</b>	<b>125</b>
	Intended learning outcomes	125
	Introduction	126
	The family	126
	The child	128
	Physical difference and disability	129
	Mental health and well-being	131
	Intervention and support	135
	Building a team around the child (TAC)	135
	Summary	138
	Signposts to further information and guidance	139
<b>7</b>	<b>Working with the child or young person</b>	<b>141</b>
	Intended learning outcomes	141
	Introduction	142
	Exploring bidirectional influences through the 'systems' model	142
	Tensions around the child	143
	Change over time	145
	The child as a client: listening to and 'hearing' the child	146
	Listening to children	148
	Practical guidance for interviewing children and young people	148
	Meeting the cost: funding and resource allocation	152
	International funding allocation formulae	154
	Summary	155

<b>8 Development of multi-agency policy: supporting the parents</b>	<b>157</b>
Intended learning outcomes	157
Introduction	158
The Solihull Approach (SA): a case study	158
Fad therapies, miracle cures and parent vulnerability: some general characteristics	162
Neurophysiological patterning: Neural Organizational Technique (NOT)	163
Sacro-craniopathy-mobilization therapy	164
Chelation and autism spectrum disorders	164
Cerebellar-vestibular dysfunction therapies	165
Dietary modification: food additives	165
Vulnerable parents: questions to ask about a treatment	168
Parent advocacy and support	170
Summary	171
<b>9 The way forward: promoting integrative practice</b>	<b>173</b>
Intended learning outcomes	173
Introduction	174
Changing the system	174
Legislative restructuring	175
The local offer	176
The Education Healthcare Plan (EHCP)	177
Appeals, mediation and dispute resolution	179
Changing the practice	181
Conclusion	184
 <i>Appendix</i>	 186
<i>Responses to self-answer activities</i>	188
<i>Glossary</i>	197
<i>References</i>	198
<i>Index</i>	213
