Preface	vii
<i>Th. Voronov</i>	
A Word About Boris Vasil'evich Fedosov	ix
Part I: Quantization, the Scientific Legacy of B.V. Fedosov	
<i>P. Bieliavsky, A. de Goursac and F. Spinnler</i>	
Non-formal Deformation Quantization and Star-exponential of the Poincaré Group	3
<i>M. Cahen and S. Gutt</i>	
Spin ^c , Mp ^c and Symplectic Dirac Operators	13
<i>M.N. Hounkonnou, D. Ousmane Samary, E. Baloïtcha and S. Arjika</i>	
$\theta(\hat{x}, \hat{p})$ -deformation of the Harmonic Oscillator in a 2D-phase Space	29
<i>M. Iida, Ch. Tsukamoto and A. Yoshioka</i>	
Star Products and Certain Star Product Functions	39
<i>S.B. Sontz</i>	
Paragrassmann Algebras as Quantum Spaces Part I: Reproducing Kernels	47
Part II: Groups, Algebras and Symmetries	
<i>D.V. Alekseevski, P.W. Michor and Yu.A. Neretin</i>	
Rolling of Coxeter Polyhedra Along Mirrors	67
<i>I. Beltiță, D. Beltiță and M. Pascu</i>	
Boundedness for Pseudo-differential Calculus on Nilpotent Lie Groups	87
<i>S. Berceanu</i>	
A Useful Parametrization of Siegel–Jacobi Manifolds	99
<i>L. Fehér</i>	
An Application of the Reduction Method to Sutherland type Many-body Systems	109

<i>D.S. Kaparulin, S.L. Lyakhovich and A.A. Sharapov</i>	
Lagrange Anchor for Bargmann–Wigner Equations	119
<i>M. Mulase</i>	
The Laplace Transform, Mirror Symmetry, and the Topological Recursion of Eynard–Orantin	127
<i>M. Schlichenmaier</i>	
An Elementary Proof of the Formal Rigidity of the Witt and Virasoro Algebra	143
<i>E. Shemyakova</i>	
Invariants for Darboux Transformations of Arbitrary Order for $D_x D_y + aD_x + bD_y + c$	155
<i>A. Tereszkievicz</i>	
Decomposition of Weyl Group Orbit Products of $W(A_2)$	163
Part III: General Methods	
<i>A. Antonevich and A. Akhmatova</i>	
On Operators Generated by Maps with Separable Dynamics	171
<i>E.Yu. Bunkova</i>	
From the Heat Equation to Ordinary Differential Equations	179
<i>I. Hinterleitner</i>	
4-planar Mappings of Quaternionic Kähler Manifolds	187
<i>I.M. Mladenov, M.T. Hadzhilazova, V.M. Vassilev and P.A. Djondjorov</i>	
Unduloid-like Equilibrium Shapes of Carbon Nanotubes Subjected to Hydrostatic Pressure	195
<i>B. Pietruczuk</i>	
Resonance Phenomenon for Potentials of Wigner–von Neumann Type	203
<i>N.A. Slavnov</i>	
Form Factor Approach to the Calculation of Correlation Functions of Integrable Models	209
<i>S. Stepanov and J. Mikeš</i>	
On Space-like Hypersurfaces in a Space-time	221
<i>L.T. Stepień</i>	
On Bogomolny Decompositions for the Baby Skyrme Models	229
