| Preface to the First Edition                      | xv   |
| Preface to the Second Edition                    | xvii |
| Preface to the Third Edition                     | 1    |
| **Brian Adams**                                  | 2    |
| Senior Member of Technical Staff Optimization and Uncertainty Estimation; Sandia National Laboratories |
| **Jeffrey Zane Anderson**                        | 4    |
| Industrial Engineer; Commonwealth Aluminum Corporation |
| **#Alysia Appell**                               | 6    |
| Senior Analyst; Northwest Airlines               |
| **P. Darcy Barnett**                             | 8    |
| Computer Scientist; National Institute of Standards and Technology |
| **Carl M. Beard**                                | 10   |
| Mathematician; Rockwell International Corporation |
| **Cherryl Beeman**                               | 12   |
| Electronic Commerce Specialist; The Kodiak Group |
| **Betsy Bennett**                                | 14   |
| Private School Teacher; St. Albans School, Washington, DC |
| **#Nick Bennett**                                | 16   |
| Research Scientist; Schlumberger                 |
| **Jonathan G. Blattmachr.**                      | 18   |
| Partner; Milbank, Tweed, Hadley & McCloy, New York and Los Angeles |
| **#Mary Bonar**                                  | 20   |
| Emergency Medicine Physician; Pinnacle Hospital, Harrisburg, PA |
| **Ron Bousquet**                                 | 22   |
| R&D Project Manager; Hewlett-Packard Company     |
| **Margaret L. Brandeau**                         | 24   |
| Associate Professor of Industrial Engineering; Stanford University |
| **Judith R. Brown**                              | 26   |
| Manager, Advanced Research Computing Services; The University of Iowa |
| **Denise Cammarata**                             | 28   |
| Senior Engineer; Westinghouse Wireless Solutions Company |
| **Cora L. Carmody**                              | 30   |
| Manager of Systems Engineering; PRC, Inc.        |
| **Jessie Caruso**                                | 32   |
| Senior Systems Integrator; CollabraSpace, Inc.   |
| **Jack Cassidy**                                 | 34   |
| Engineer Scientist, Firmware; Hewlett-Packard    |
| **Shane Chalke**                                 | 36   |
| Actuary/Business Owner; Chalke, Inc.             |
Judith E. Chapman
Senior Software Engineer; Harris Scientific Calculations ................................................................. 38

Samson Cheung
Research Scientist; MCAT Institute, NASA Ames Research Center ......................................................... 40

Yves Chiricota
Professor; Université du Québec à Chicoutimi ............................................................................................... 42

#Megan Christensen
Risk Analyst; Travelers Insurance .................................................................................................................. 44

#Andrea Cook
Employee Benefits Consultant; Plante & Moran, PLLC ............................................................................... 46

James L. Cooley
Aerospace Mathematician; NASA Goddard Space Flight Center ................................................................. 48

Mary K. Cooney
Mathematics Editor; Simon & Schuster, Inc. .................................................................................................... 50

Jeff Cooper
Corporate Technical Developer; P.H. Glatfelter Company ........................................................................ 52

Joe Corrigan
Project Mathematics! ........................................................................................................................................ 54

H. Michael Covert
Senior Computer Systems Specialist; Chemical Abstracts Service ............................................................. 56

Sarah Cullen
Senior Professional Relations Representative; Bay State Health Care ....................................................... 58

Allison DeLong
Marine Research Associate; University of Rhode Island ............................................................................... 60

Janet P. DenBleyker
Assistant Actuary; Buck Consultants ........................................................................................................... 62

Mark Derwin ...................................................................................................................................................... 64

Susan J. Devlin
Director–Measurements Research; Bellcore .................................................................................................. 66

J. Wanzer Drane
Professor of Biostatistics; University of South Carolina School of Public Health ......................................... 68

Arnitra Duckett
Educational Markets Manager; Texas Instruments, Incorporated ..................................................................... 70

Paula Duckett
Elementary School Mathematics Specialist .................................................................................................. 72

Yawa Duse-Anthony
Senior Associate; KKO and Associates ........................................................................................................ 74

M. Scott Elliott
Operations Research Analyst; FedEx Corporation ............................................................................................ 76

#Katie Evans
Assistant Professor; Louisiana Tech University ............................................................................................... 78

Helaman Ferguson
Sculptor ............................................................................................................................................................ 80

Rol Fessenden
Director of Inventory Control; L.L. Bean ........................................................................................................ 82
#Kathie Flood .................................................................84  
Program Manager; Microsoft Games Studio

#Sara Ford .................................................................86  
Software Design Engineer in Test; Microsoft Corporation

Richard D. Fuhr ...........................................................88  
Senior Engineer; Electronic Data Systems

Holly Gaff .................................................................90  
Graduate Research Associate; University of Tennessee

Marshall B. Garrison .......................................................92  
Principal Software Engineer; PictureTel Corporation

#Allen Gibson ...............................................................94  
Instructor; Stillman School of Business, Seton Hall University

Ruth Gonzalez ..............................................................96  
Research Specialist; Exxon Production Research Company

Douglas A. Gray .............................................................98  
Senior Consultant; American Airlines Decision Technologies

Cynthia Carter Haddock ..................................................100  
Professor and Academic Program Director; University of Alabama at Birmingham

Charles R. Hadlock ........................................................102  
Professor of Mathematics; Bentley College

Charles Hagwood ............................................................104  
Mathematician; National Institute of Standards and Technology (NIST)

John F. Hamilton ..........................................................106  
Research Associate; Eastman Kodak Company

William D. Hammers .......................................................108  
Chief Financial Officer; Optimal Solutions

#Jeff Hand ........................................................................110  
Senior Physics Engineer; Raytheon

Carl M. Harris ...............................................................112  
Professor and Operations Researcher; George Mason University

Mary Hesselgrave ...........................................................114  
Distinguished Member of Technical Staff; Lucent Technologies Bell Labs

Jerry W. Highfill ............................................................116  
Mathematical Statistician; United States Environmental Protection Laboratory

#Matthew D. Janssen .........................................................118  
Commercial Litigation Attorney; Pepper Hamilton LLP

Richard Järvinen ............................................................120  
Professor and Consultant; Winona State University and NASA

#Captain C.J. Jaynes .......................................................124  
PMA 213 Program Manager; United States Navy

Denise Ann Johnston ......................................................126  
Instructor and Consultant on Quality Control; Boeing Commercial Airplane Group

Patricia H. Jones .............................................................128  
Professor and Chair; Methodist College
Marcia P. Kastner .............................. 130
Research Scientist; Akamai Technologies, Inc.

Sherra E. Kerns .................................. 132
Professor and Chair; Vanderbilt University

Gary Kim ......................................... 134
Accounting Manager; Perdue Farms Incorporated

#Greg King ...................................... 136
Teacher; Dublin City Schools

Kay Strain King .................................. 138
Senior Environmental Mathematician; Theta Engineering, Inc.

Karen M. Kneisel ................................. 140
Project Manager; Otis Elevator Company

#John Kuchenbrod ................................. 142
Project Team Manager; The MITRE Corporation

Janice A. Kulle .................................. 144
Senior Product Actuary; The Baltimore Life Insurance Company

Kimberly A. Kuntz ................................. 146
Senior Systems Engineer; Electronic Data Systems

Michael H. Kutner ................................. 148
Chairman, Department of Biostatistics and Epidemiology; The Cleveland Clinic Foundation

Donna E. Lawson ................................. 150
Economist; National Oceanic and Atmospheric Administration

Christopher M. Legault ......................... 152
Research Fishery Biologist; NOAA Fisheries

Loren Mernoff Lewin ............................. 154
Senior Systems Engineer; Teledia Technologies

Mike Lieber ....................................... 156
Biostatistician; Cleveland Clinic Foundation

Peter A. Lindstrom ............................... 158
Retired Professor of Mathematics; North Lake College

#Dan Loeb ........................................ 160
Quantitative Research Department; Susquehanna International Group

Tammy M. Lofton .................................. 162
Actuarial Assistant; Nationwide Insurance Company

#Valerie Lopez-Zinzer, A.S.A .................. 164
Actuarial Associate; Watson Wyatt

Christopher M. Luczynski ...................... 166
Senior Associate Engineer; Mask House, IBM

#Chad Magers .................................... 168
Scientist; Naval Surface Warfare Center

Carol J. Mandell ................................ 170
Market Researcher; Corporate Software, Inc.

#Carla D. Martin ................................. 172
Assistant Professor; James Madison University
