Preface to the First Edition ....................................................... xv
Preface to the Second Edition .................................................... xvii
Preface to the Third Edition ....................................................... 1

**Brian Adams** ................................................................. 2
Senior Member of Technical Staff Optimization and Uncertainty Estimation; Sandia National Laboratories

**Jeffrey Zane Anderson** ....................................................... 4
Industrial Engineer; Commonwealth Aluminum Corporation

**Alysia Appell** ................................................................. 6
Senior Analyst; Northwest Airlines

**P. Darcy Barnett** .............................................................. 8
Computer Scientist; National Institute of Standards and Technology

**Carl M. Beard** ................................................................. 10
Mathematician; Rockwell International Corporation

**Cherryl Beeman** ............................................................... 12
Electronic Commerce Specialist; The Kodiak Group

**Betsy Bennett** ................................................................. 14
Private School Teacher; St. Albans School, Washington, DC

**Nick Bennett** ................................................................. 16
Research Scientist; Schlumberger

**Jonathan G. Blattmachr** .................................................... 18
Partner; Milbank, Tweed, Hadley & McCloy, New York and Los Angeles

**Mary Bonar** ................................................................. 20
Emergency Medicine Physician; Pinnacle Hospital, Harrisburg, PA

**Ron Bousquet** ................................................................. 22
R&D Project Manager; Hewlett-Packard Company

**Margaret L. Brandeau** ...................................................... 24
Associate Professor of Industrial Engineering; Stanford University

**Judith R. Brown** ............................................................. 26
Manager, Advanced Research Computing Services; The University of Iowa

**Denise Cammarata** .......................................................... 28
Senior Engineer; Westinghouse Wireless Solutions Company

**Cora L. Carmody** ............................................................ 30
Manager of Systems Engineering; PRC, Inc.

**Jessie Caruso** ................................................................. 32
Senior Systems Integrator; CollabraSpace, Inc.

**Jack Cassidy** ................................................................. 34
Engineer Scientist, Firmware; Hewlett-Packard

**Shane Chalke** ................................................................. 36
Actuary/Business Owner; Chalke, Inc.

</table>
Marcia P. Kastner .................................................. 130  
Research Scientist; Akamai Technologies, Inc. 

Sherra E. Kerns .................................................. 132  
Professor and Chair; Vanderbilt University 

Gary Kim .......................................................... 134  
Accounting Manager; Perdue Farms Incorporated 

#Greg King ...................................................... 136  
Teacher; Dublin City Schools 

Kay Strain King ................................................ 138  
Senior Environmental Mathematician; Theta Engineering, Inc. 

Karen M. Kneisel ............................................... 140  
Project Manager; Otis Elevator Company 

#John Kuchenbrod .............................................. 142  
Project Team Manager; The MITRE Corporation 

Janice A. Kulle ................................................ 144  
Senior Product Actuary; The Baltimore Life Insurance Company 

Kimberly A. Kuntz ............................................. 146  
Senior Systems Engineer; Electronic Data Systems 

Michael H. Kutner .......................................... 148  
Chairman, Department of Biostatistics and Epidemiology; The Cleveland Clinic Foundation 

Donna E. Lawson ............................................... 150  
Economist; National Oceanic and Atmospheric Administration 

Christopher M. Legault ..................................... 152  
Research Fishery Biologist; NOAA Fisheries 

Loren Mernoff Lewin ......................................... 154  
Senior Systems Engineer; Telcordia Technologies 

Mike Lieber .................................................... 156  
Biostatistician; Cleveland Clinic Foundation 

Peter A. Lindstrom .......................................... 158  
Retired Professor of Mathematics; North Lake College 

#Dan Loeb ....................................................... 160  
Quantitative Research Department; Susquehanna International Group 

Tammy M. Lofton ............................................. 162  
Actuarial Assistant; Nationwide Insurance Company 

#Valerie Lopez-Zinzer, A.S.A .............................. 164  
Actuarial Associate; Watson Wyatt 

Christopher M. Luczynski ................................. 166  
Senior Associate Engineer; Mask House, IBM 

#Chad Magers ................................................. 168  
Scientist; Naval Surface Warfare Center 

Carol J. Mandell ............................................. 170  
Market Researcher; Corporate Software, Inc. 

#Carla D. Martin ............................................. 172  
Assistant Professor; James Madison University
Patrick Dale McCray .......................................................... 174
   Systems Project Leader; G.D. Searle & Co., a subsidiary of Monsanto

Jennifer E. McLean .......................................................... 176
   Member of Technical Staff; Jet Propulsion Laboratory

Juan C. Meza ........................................................................ 178
   Numerical Analyst; Sandia National Laboratories

Michael G. Monticino .......................................................... 180
   Associate Professor; University of North Texas

S. Brent Morris ................................................................. 182
   Mathematician; National Security Agency

William D. Murphy ............................................................ 184
   Applied Mathematician; Rockwell International Science Center

Michael J. Murray ............................................................ 186
   Java Developer; IBM Global Services

Deenanne Kay Myers .......................................................... 188
   Product Analyst; AIG Specialty Auto

Joan Peters Ogden .............................................................. 190
   Consulting Actuary; Joan Ogden Actuaries

Edna Lee Paisano .............................................................. 192
   Statistician; Bureau of the Census

#Amanda Peterson ............................................................ 194
   Modeling and Simulation Analyst; Dynamic Research Corporation

Bruce A. Powell ............................................................... 196
   Manager, Group Control; Otis Elevator Company

Marla Prenger ................................................................. 198
   Associate Scientist; Procter and Gamble

Edward H. Preston .......................................................... 200
   Sr. Information Systems Engineer; MITRETEK Systems, Inc.

Fred L. Preston .................................................................. 202
   Systems Engineer; Lucent Technologies

Diane R. Purcell ............................................................... 204
   Financial Analyst; KeyCorp

#Amanda Quiring ............................................................. 206
   Project Manager; International Accounting Standards Board

Laura Readdy ................................................................. 208
   Advanced Systems Engineer; Electronic Data Systems Corporation (EDS)

Brian D. Repp .................................................................. 210
   Senior Data Math Analyst; Bendix Field Engineering Corporation

Mark A. Reynolds ............................................................ 212
   Operations Research Manager; USAir, Inc.

Nancy K. Roderer ............................................................. 214
   Director; Harvey Cushing/John Hay Whitney Medical Library, Yale University

Peter Rosenthal ............................................................... 216
   Professor; University of Toronto

David S. Ross ................................................................. 218
   Research Associate; Eastman Kodak Company
Sue E. Waldman .................................................. 270
Mathematician; US Department of Agriculture

#Rodney B. Wallace ........................................... 272
Technical Solutions Manager; IBM

Martha Weeks .................................................. 274
Computer Marketing Consultant; Self-employed

Benjamin E. Weiss .............................................. 276
Imaging Scientist; MetaCreations Corp.

Faedra Lazar Weiss ............................................ 278
Research Associate; Girls Incorporated National Research Center

Michael D. Weiss ............................................... 280
Agricultural Economist; US Department of Agriculture

Gary L. Welz ..................................................... 282
Director of Corporate Business Development; THINKNewIdeas

Dan C. White ................................................... 284
Actuary

Paul Willoughby ............................................... 286
Lead Software Analyst; PRB-COMPTEK Systems

Sandra L. Winkler .............................................. 288
Research Scientist; Ford Motor Company

Sarah Adams Yeary ............................................ 290
Technical Lead; Lockheed Martin Air Traffic Management

#James W. Yen ................................................ 292
Area Development Manager; GlaxoSmithKline Vaccines

#Joyce W. Yen .................................................. 294
Program/Research Manager; ADVANCE Program, University of Washington

Yvonne Zhou .................................................... 296
Software Engineer; Cray Research, Inc.

Yaromyr Andrew Zinkewych ................................ 298
Troubleshooter; Hubble Space Telescope

Paul Zorn ........................................................ 300
Professor; St. Olaf College

Appendices ....................................................... 303
Seven Steps to Finding a Job .................................. 305
Interviewing Tips from the Pros ............................. 311
So You Want to Work in Industry ......................... 319
Teamwork—The Special Challenge of Industry ............ 327
Degrees Earned by Mathematics Majors .................. 333
