Contents

Contributors

1 Incubating new ideas about avian reproduction
S.J. Reynolds & D.C. Deeming 1

2 The fossil record and evolution of avian egg nesting and incubation
D.C. Deeming 8

3 Nest construction behaviour
S.D. Healy, K.V. Morgan, & I.E. Bailey 16

4 Functional properties of nests
D.C. Deeming & M.C. Mainwaring 29

5 The influence of predation on the location and design of nests
M.C. Mainwaring, S.J. Reynolds, & K. Weidinger 50

6 Nest construction and incubation in a changing climate
M.C. Mainwaring 65

7 Microbiology of nests and eggs
A. West, P. Cassey, & C.M. Thomas 75

8 Control of invertebrate occupants of nests
I. López-Rull & C. Mañas Garcia 82

9 Egg allometry: influences of phylogeny and the altricial–precocial continuum
G.F. Birchard & D.C. Deeming 97

10 Egg quality, embryonic development, and post-hatching phenotype: an integrated perspective
T.D. Williams & T.G.G. Groothuis 113

11 Egg signalling: the use of visual, auditory, and chemical stimuli
K. Brulez, T.W. Pike, & S.J. Reynolds 127

Nests, eggs, and incubation

digitalisiert durch:
IDS Basel Bern
12 Improvements in our understanding of behaviour during incubation
V. Marasco & K.A. Spencer

13 The energetic costs of incubation
A. Nord & J.B. Williams

14 Influence of incubation temperature on offspring phenotype and fitness in birds
G.R. Hepp, S.E. DuRant, & W.A. Hopkins

15 Advances in techniques to study incubation
J.A. Smith, C.B. Cooper, & S.J. Reynolds

16 Applications of incubation science to aviculture and conservation
D.C. Deeming & N.S. Jarrett

17 The role of citizen science in studies of avian reproduction
C.B. Cooper, R.L. Bailey, & D.I. Leech

18 Perspectives on avian nests and eggs
D.C. Deeming & S.J. Reynolds
