## **1. WHAT IS LYME DISEASE? 1**

Basic Facts 1

A Bird's Eye View 7

## **2. THE EARLY HISTORY AND EPIDEMIOLOGIC SURVEILLANCE 17**

What Was the Infectious Agent of Lyme Disease? 20

The Spread of Lyme Disease and National Surveillance 23

## **3. WHAT ARE THE SYMPTOMS AND SIGNS OF LYME DISEASE? 30**

Early Localized Stage 30

Early Disseminated Stage 34

Late Disseminated Stage 45

Post-Treatment Lyme Disease Syndrome 59

## **4. WHAT DO THE DIAGNOSTIC TESTS TELL US? 63**

Blood Tests 64

Urine-Based Tests 86

Spinal Fluid and Brain Tests 87

Other Tests 97

Summary 99

## **5. THE GREAT DIVIDE AND THE LYME WARS 101**

What Is the Great Divide? 103

What Are the Lyme Wars? 107

Concluding Comments Regarding the Great Divide and the Lyme Wars 139

## **6. WHY WOULD SYMPTOMS PERSIST AFTER ANTIBIOTIC TREATMENT FOR LYME DISEASE? 142**

Persistent Infection Hypothesis 142

Residual Damage Hypothesis 148

Persistent Immune Activation and Inflammation Hypothesis 148

Neural Network Dysregulation Hypothesis 150

The Relationship Between Immune Activation and Depression 153

The Connection Between the Gut Microbiome and Mood 155

Somatization, Anxiety, and Chronic Symptoms 157

## **7. WHAT ARE THE TREATMENTS FOR LYME DISEASE? 159**

Treatment of Early Lyme Disease 161

Treatment of Later-Stage Disseminated Lyme Disease 161

Treatment Failures and *Borrelia* Persists 163

Risks and Benefits of Antibiotics 167

Treatment of Post-Treatment Lyme Disease Syndrome 169

Other Therapeutic Strategies 182

## **8. OTHER TICK-BORNE INFECTIONS 203**

Common Tick-Borne Infectious Diseases 205

Other Tick-Borne Infectious Diseases 213

Other Vector-Transmitted Infections (Possibly by Ticks) 238

Other Disorders Caused by Ticks but Not Inducing Human Infection 241

---

## **9. WHAT OTHER NONINFECTIOUS DISEASES CAUSE LYME-LIKE SYMPTOMS? 244**

- Celiac Disease 244
- Chronic Fatigue Syndrome 245
- Chronic Heavy Metal Poisoning 246
- Chronic Inflammatory Demyelinating Polyneuropathy 250
- Fibromyalgia 251
- Lupus 253
- Major Depressive Disorder 253
- Malignancy (Cancer) 254
- Multiple Sclerosis 255
- Panic Disorder 256
- Pediatric Autoimmune Neuropsychiatric Disorders Associated  
with Streptococcus 257
- Postural Orthostatic Tachycardia Syndrome 257
- Sleep Disorders 258
- Somatic Symptom Disorder 259
- Vitamin B12 Deficiency 260

## **10. LYME DISEASE PREVENTION AND TRANSMISSION 262**

- The Ticks 262
- Prevention Recommendations 268
- Transmission 277
- Lyme Disease and Pregnancy 281
- The Lyme Disease Vaccines 285
- New Developments in Prevention 288

## **11. SUGGESTIONS TO THE PATIENT SEEKING EVALUATION OR TREATMENT 290**

- How to Approach the Visit 290
- What to Bring to the Appointment 292
- Seeking a Second Opinion 294
- Tips for Navigating Online Health Information 296

## 12. THE EXPERIENCE OF THE PATIENT WITH CHRONIC SYMPTOMS 299

- The Politically Charged Climate and Its Impact on the  
Physician-Patient Relationship 301
- Protean Nature of the Presentations of Lyme Disease 306
- The Variability of Course: Waxing and Waning Symptoms 307
- Psychological Ramifications of an “Invisible” Chronic Illness 309
- The Fact that Lyme Disease Can Affect the Brain and Sensorium 314
- Uncertainty Surrounding Diagnosis, Treatment, and Prognosis 317
- The Role of Mental Health Care and Resiliency 320
- Conclusion 322

## 13. FREQUENTLY ASKED QUESTIONS 324

- Signs, Symptoms, and Diagnosis 324
- Overlap of Lyme Disease with Other Diseases 328
- Testing and Treatment for Lyme Disease 338
- Ticks 353
- Miscellaneous 355

## 14. THE GOOD NEWS EMERGING FROM LYME DISEASE RESEARCH 359

- Recognition that *Borrelia* Persist 359
- Repeated Antibiotics Can Help 361
- Persister *Borrelia Burgdorferi* Spirochetes May Necessitate Different  
Treatment Approaches 362
- Recognition that Persistent Symptoms After Treatment for Lyme Disease  
Have Been Associated with Objective Biologic Findings 363
- Recognition that Lyme Disease Infection May Lead to Abnormally  
Active Neural Pathways 363
- “Omics Research” Can Help Improve Diagnostics  
and Clarify Pathophysiology 364
- Identification of a New Tick-Borne Infection Causing Symptoms  
Similar to Lyme Disease 365
- New Prevention Strategies 366
