Abstract 3

Chapter 1 General Introduction 5

 1.1 *Antisocial and Aggressive Behaviour..... 5*

 1.2 *Emotion Regulation..... 7*

 1.2.1 Definition and Categorisation..... 7

 1.2.2 Neural Correlates..... 8

 1.2.3 Autonomic Correlates10

 1.2.3.1 Basic Measures and Main Results in Aggression.....10

 1.2.3.2 Central Autonomic Control11

 1.2.3.3 ANS and Brain Structure12

 1.2.3.4 ANS and Emotion Regulation13

 1.3 *Gaps in the Literature and Aims of the Thesis.....14*

Chapter 2 Baseline autonomic nervous system activity in female children and adolescents with conduct disorder: Psychophysiological findings from the FemNAT-CD study.....16

Chapter 3 Resting autonomic nervous system activity is unrelated to antisocial behavior dimensions in adolescents: Cross-sectional findings from a european multi-centre study.....47

Chapter 4 Altered neuronal responses during an affective Stroop task in adolescents with conduct disorder75

Chapter 5 Linking heart rate variability to psychological health and brain structure in female youths with conduct disorder.....102

Chapter 6 General Discussion103

 6.1 *CD Subtypes..... 104*

 6.2 *Physiological Phenotypes.....107*

 6.3 *HRV and Brain Structure.....108*

 6.4 *Covariate Smoking and Emotion Regulation.....109*

 6.5 *Strengths110*

 6.6 *Limitations111*

 6.7 *Future Research111*

 6.8 *Conclusion.....112*
