<b>1 Introduction: Objectives, Substantive Issues and Structure of This Book</b>	<b>1</b>
1.1 Positioning Ourselves: The Objectives of This Book	1
1.2 Substantive Issues: The Sustainable Development Goals and the Paris Climate Agreement	4
1.2.1 The Sustainable Development Goals	4
1.2.2 Climate Change	5
1.3 The Context for the SDGs: Defining Global Change, Sustainable Development and Governance	9
1.3.1 Global Change	9
1.3.2 Sustainable Development	9
1.3.3 Governance: Definition and Role in the 2030 Agenda	12
1.3.4 Sustainability and Transition Governance: Clarification of Terms	16
1.4 Structure of This Book	17
References	17
<b>2 Overview of Governance Theories That Are Relevant for the SDGs</b>	<b>21</b>
2.1 Combining Theories of Governing Societal Change Towards Sustainability	22
2.2 Transition Governance	22
2.2.1 Transition Theory	22
2.2.2 Transition Management	23
2.2.3 Analysing Transitions: Multilevel, Multiphase and Driving Forces Frameworks	24
2.3 Metagovernance	27
2.3.1 The Nature of Metagovernance	27
2.3.2 The Framework Conditions for Metagovernance	30
2.3.3 The Benefits of Metagovernance for the SDGs	31
2.4 Polycentricity	32
2.5 Network Governance	33
2.5.1 Network Governance and the (Re)scaling of Sustainability Governance	35
2.5.2 Transnational Governance Networks	36

2.6	Experimentalist Governance for the SDGs . . . . .	37
2.6.1	Putting Experimentalist Governance in Practice . . . .	39
2.6.2	Benefits of Experimentalist Governance for the SDGs . . . . .	39
2.6.3	Conditions for Experimentalist SDG Governance . . .	41
2.7	Chapter Conclusions: Bridging Governance Theories That Are Relevant for the SDGs . . . . .	41
2.7.1	Comparing the Theories in This Chapter . . . . .	42
	References . . . . .	45
<b>3</b>	<b>Laying Out Actors and Dynamics in the 2030 Agenda for Sustainable Development . . . . .</b>	<b>49</b>
3.1	The Role of Traditionally Hierarchical, Single-Level Actors in SDG Governance . . . . .	49
3.1.1	Local Governments and Cities: SDG Action on the Ground . . . . .	49
3.1.2	National Governments . . . . .	55
3.1.3	International Organizations . . . . .	58
3.2	Multilevel and Non-traditional Governance Actors and Institutions . . . . .	64
3.2.1	Media . . . . .	64
3.2.2	Knowledge Institutions and Boundary Organizations . . . . .	64
3.2.3	Private Corporations . . . . .	67
3.2.4	Non-governmental Organizations (NGOs) . . . . .	70
3.2.5	Empowered Citizens: The Role of Democracy and Deliberative Governance in the SDGs . . . . .	72
3.3	Conclusions: Bringing Actors Together in Order to Achieve the SDGs . . . . .	78
	References . . . . .	79
<b>4</b>	<b>Exploring Some Specific Case Studies . . . . .</b>	<b>83</b>
4.1	Case Study 1: Decarbonization of the Global Economy (SDGs 7 and 13) . . . . .	83
4.1.1	Decarbonization Challenges . . . . .	84
4.1.2	Decarbonization Opportunities . . . . .	88
4.2	Case Study 2: Energy Efficiency and the SDGs . . . . .	89
4.2.1	What Is Energy Efficiency? . . . . .	89
4.2.2	Barriers to Improved Energy Efficiency . . . . .	90
4.2.3	Drivers for Improving Energy Efficiency . . . . .	90
4.2.4	Energy Efficiency Across the SDGs . . . . .	90
4.2.5	A Systems Perspective on Energy Efficiency and the SDGs . . . . .	94
4.3	Case Study 3: The ‘WEF-Climate Nexus’ Approach as a Framework for Systems Thinking on the SDGs . . . . .	95
4.3.1	Linkages Within the Nexus and Between SDGs 2, 6, and 7 . . . . .	96
4.3.2	Governance Challenges and Needs for the WEF Nexus . . . . .	98

4.3.3	Geopolitics and Transnational Coherence: Trade and the WEF Nexus .....	99
4.4	Case Study 4: Trade and the SDGs .....	100
4.4.1	Introduction: General Overview .....	100
4.4.2	Trade and the SDGs .....	102
4.4.3	Trade in Environmental Goods and Services .....	104
4.4.4	The Origins of the Environmental Goods Agreement (EGA) .....	105
4.4.5	Economic Impacts of a Successful EGA .....	105
4.4.6	Environmental Benefits of the EGA .....	106
4.4.7	State-of-Play of the EGA Negotiations .....	108
4.5	Chapter Conclusions: Policy Implications and Ways Forward .....	108
	References .....	109
<b>5</b>	<b>Governance Pillars and Competences: Power, Knowledge and Norms as Cross-Cutting Issues in Governance for the SDGs .....</b>	<b>113</b>
5.1	Competencies in the ISG Framework .....	113
5.2	Governance Pillar 1: Power .....	114
5.2.1	Defining Power .....	114
5.2.2	The Role of Power in the Case Studies .....	115
5.2.3	Power Competence 1: Leadership .....	116
5.2.4	Power Competence 2: Networking and Stakeholder Management .....	120
5.2.5	Power Competence 3: Empowerment .....	122
5.3	Governance Pillar 2: Knowledge .....	125
5.3.1	Defining Knowledge .....	125
5.3.2	The Role of Knowledge in Governance for the SDGs .....	125
5.3.3	Knowledge Competence 1: Knowledge Cooperation (Knowledge Sharing and Learning) ...	127
5.3.4	Knowledge Competence 2: Adaptiveness and Resilience .....	128
5.3.5	Knowledge Competence 3: Reflexivity .....	131
5.4	Governance Pillar 3: Norms and Values .....	132
5.4.1	Defining Norms and Values .....	132
5.4.2	The Importance of Norms and Values in Governance for the SDGs .....	133
5.4.3	Three Competences for Norms and Values .....	134
5.4.4	Norm Competence 1: Equity—Justice and Fairness .....	134
5.4.5	Norm Competence 2: Creating ‘Horizontal’ and ‘Vertical’ Trust .....	136
5.4.6	Norm Competence 3: Inclusiveness and Pluralism .....	141
5.5	Conclusions: Establishing Some Linkages Between Power, Knowledge and Norms .....	144
	References .....	146

<b>6 Inferences on Improving Integrative Sustainability Governance</b>	<b>153</b>
6.1 Inference 1. Considering Behavioural Insights: The Human Dimension of Governance for the SDGs	153
6.1.1 Behavioural Barriers to Climate Governance	154
6.1.2 An Updated Multilevel Perspective that Includes World View, Visions and Paradigms	156
6.1.3 Human Will and Motivation as Drivers for Sustainability Governance	156
6.1.4 Self-interest	158
6.1.5 Well-Being and Happiness	159
6.1.6 Enlightened Self-interest	160
6.1.7 (Political) Identity	162
6.2 Inference 2. Addressing Complexity Through Systems Design and Systems Deliberation	165
6.2.1 Challenges that Complexity Poses for the SDGs	167
6.2.2 The Multiplication of Complexity	167
6.2.3 The Benefits of Systems Thinking in Governance for the SDGs	168
6.2.4 A Systems Definition of Sustainable Development	169
6.2.5 Structured Methods for (Collective) Systems Thinking	170
6.2.6 Policy Coherence for Sustainable Development	174
6.2.7 Integral Theory	176
6.3 Inference 3. Mobilizing the Momentum of 'Crisis' for Change and Collective Action on the SDGs	176
6.3.1 Crisis in the Context of Climate Change and Sustainable Energy	176
6.3.2 Examples of Crisis Driving Change	180
6.3.3 Three Types of Crisis in Transition Theory	182
6.3.4 Crisis Leadership	183
6.3.5 Crisis and Integrated Risk Management	184
6.4 Chapter Conclusions	185
References	188
<b>7 Conclusions: The Integrative Sustainability Governance Framework and Ways Forward</b>	<b>193</b>
7.1 Governance Factors and Tools	193
7.1.1 Governance Factors: The Barriers and Drivers to Transitions	193
7.1.2 Toolkit	198
7.2 The Integrative Sustainability Governance Framework: Showcasing Collective Action Through SDG Hubs	201
7.2.1 Background: Achieving the SDGs Requires Good, Effective, Equitable and Integrated Governance	201
7.2.2 SDG Hubs	202
7.2.3 The ISG Cycle and the Role that SDG Hubs Can Play in It	203

---

7.2.4	Assessment of the Integrative Sustainability Governance Framework . . . . .	210
7.2.5	Afterthought: The Need for Pragmatism and Paradigm Shifts in Governance for the SDGs . . . . .	211
	References . . . . .	212
