	<i>Acknowledgements</i>	xvii
	<i>Preface</i>	xviii
1	An introduction to the marine environment: the structure and function of the world's oceans	1
	<i>Introduction</i>	1
	<i>Similarities and differences between marine and terrestrial environments</i>	3
	<i>Physiographic characteristics of the marine environment</i>	9
	<i>Oceanographic characteristics of the marine environment</i>	11
	<i>The marine biological environment</i>	20
	<i>Chapter summary</i>	29
2	An introduction to international law: international marine law and the United Nations Convention on the Law of the Sea	32
	<i>Introduction</i>	32
	<i>Types of ownership regimes in the ocean</i>	32
	<i>An introduction to law and types of legal systems</i>	33
	<i>A primer on international law</i>	35
	<i>International marine law</i>	41
	<i>UN Conventions on the Law of the Sea</i>	61
	<i>International organizations that establish and oversee international marine law</i>	78
	<i>Organizations under the LOSC that establish and oversee international marine law</i>	81
	<i>Chapter summary</i>	87
3	An introduction to policy: instruments for marine law and policy	90
	<i>Introduction</i>	90
	<i>Relationship between law and public policy</i>	92
	<i>The need for marine policy</i>	92
	<i>Characteristics of marine policy</i>	94
	<i>Introduction to marine policy instruments</i>	94
	<i>Economic instruments</i>	102

	Market enhancement instruments	107
	Informational instruments	110
	Voluntary instruments	115
	Chapter summary	117
4	Developing and analysing policies: an introduction to policy analysis	120
	Introduction	120
	The policy cycle	121
	Considerations in selecting public policies	127
	Methods and tools for selecting and analysing policies	133
	Quantitative versus qualitative analysis	141
	Role of science in policy-making	142
	Chapter summary	143
5	Marine environmental protection policy: international efforts to address threats to marine biodiversity	146
	Introduction	146
	Threats to marine biodiversity	147
	History of international marine environmental law and policy	150
	Conventions that pertain to marine environmental protection	151
	Threat-specific conventions and the protection of the marine environment	155
	International law related to climate change	160
	Important marine regional agreements	163
	Chapter summary	171
6	International fisheries policy: sustaining global fisheries for the long term	175
	Introduction	175
	An overview of fisheries management	176
	History of international fisheries law and policy	190
	Organizations that oversee international fisheries management	191
	International agreements affecting fisheries	196
	Chapter summary	210
7	Marine transportation and safety policy: the operation and regulation of international shipping	215
	Introduction	215
	An overview of contemporary shipping	216
	Introduction to marine transportation law and policy	220
	International law dealing with the ship	225
	International law dealing with the shipping company	228
	International law dealing with the seafarer	231
	Maritime security	233
	Shipping and the environment	238
	Chapter summary	246

8	International law and policy of the polar oceans: governing the Southern and Arctic oceans	251
	<i>Introduction</i> 251	
	<i>Introduction to the Antarctic and Southern Ocean</i> 251	
	<i>Introduction to the Arctic</i> 260	
	<i>Chapter summary</i> 267	
9	International law and policy related to offshore energy and mining: renewable and non-renewable resource development on continental shelves and in the Area	270
	<i>Introduction</i> 270	
	<i>Differences between continental shelves and deep ocean areas with respect to energy and mineral development</i> 270	
	<i>The LOSC and energy and mineral development</i> 271	
	<i>Management of marine energy and mineral resources on continental shelves</i> 272	
	<i>Management of marine energy and mineral resources in deep sea areas</i> 275	
	<i>Chapter summary</i> 277	
10	Integrated approaches to ocean management: putting policy into practice and managing across sectors	279
	<i>Introduction</i> 279	
	<i>Coastal zone management</i> 280	
	<i>Ecosystem approaches to management</i> 285	
	<i>Marine protected areas</i> 286	
	<i>Marine spatial planning</i> 292	
	<i>Cumulative effects</i> 293	
	<i>Private ocean rights</i> 296	
	<i>Chapter summary</i> 299	
	 Conclusion	303
	<i>A report card on ocean management</i> 303	
	 Index	305
